REQUEST FOR PROPOSAL (Secondary)
EMSA-09-01-R California Medical Assistance Team (CAL-MAT)
Notice to Prospective Bidders

March 9, 2010

You are invited to review and respond to this Request for Proposal (RFP), entitled EMSA-09-01-R California Medical Assistance Team (CAL-MAT). In submitting your proposal, you must comply with these instructions.

Note that all agreements entered into with the State of California will include by reference General Terms and Conditions that may be viewed and downloaded at Internet site www.ols.dgs.ca.gov/Standard+language.

In the opinion of the EMS Authority, this RFP is complete and without need of explanation. However, if you have questions, or should you need any clarifying information, the contact person for this RFP is:

Eric Kapucinski, Administrative Unit
Emergency Medical Services Authority
1930 9th Street
Sacramento, CA 95811
(916) 322-4336
eric.kapucinski@emsa.ca.gov

DEADLINE: Proposals **must be received** no later than 3:00 p.m. on April 1, 2010 at the California Emergency Medical Services Authority.

Additional funding may be separately available for annual training or optional services that benefit the CAL-MAT program.

Please note that no verbal information given by the EMS Authority will be binding upon the State unless such information is issued in writing.

I. Purpose

The purpose of this RFP is to solicit bids for a contractor to provide and coordinate all services for a complete California Medical Assistance Team (CAL-MAT) program as defined in this scope of work. At the direction of the EMS Authority, the selected contractor will manage and utilize state owned equipment, supplies and vehicles stored in three state leased warehouses. These assets will be combined with contractor recruited, credentialed and trained medical and support personnel to meet the state's established readiness and response capabilities for disaster medical response.

II. Background

As the lead agency responsible for coordinating the medical response to disasters in California, pursuant to Health and Safety Code 1797.150, the EMS Authority has developed a tiered response system of Ambulance Strike Teams (AST), California Medical Assistance Teams (CAL-MAT), Mobile Field Hospitals (MFH), and Mission Support Teams (MST).

The CAL-MAT program is an integral component of California's disaster medical response system. The EMS Authority has purchased vehicles and equipment caches, procured storage and response warehouses and completed the first phase of developing the CAL-MAT program. The State EMS Authority owns the vehicles, equipment and supply caches; These assets will be combined with contractor recruited, credentialed and trained medical and support personnel to meet the state's established readiness and response capabilities for disaster medical response. The CAL-MATs are located in three locations within California: Sacramento, Santa Clara, and San Bernardino counties.

CAL-MATs are teams of health care providers such as physicians, nurses, pharmacists, paramedics, EMTs and support staff capable of providing disaster medical support in austere environments. Deployed by the EMS Authority, CAL-MATs are a part of the state's tiered disaster medical response system and provide services to augment medical care and/or re-establish medical care in areas of the State where hospitals or medical care systems have been damaged or overwhelmed.

The CAL-MATs respond to disasters primarily within California but may be deployed out of the state under the Emergency Management Assistance Compact (EMAC) at the Governor's discretion. They are self-sufficient for up to 72 hours with their cache of supplies including food, water and medicine. CAL-MAT personnel must be able to respond to departure points within 12 hours, and be self-deployable within 500 miles of the departure point.

The nature of the disaster and its effects on the community would determine the type of medical resources CAL-MAT would provide, such as: triage, first aid, treatment, nursing or medical care, prescribing and dispensing medications, or in some cases surgery. Settings might include disaster triage sites, clinics, hospitals, or other medical care settings. Additionally, CAL-MATs are intended to be the primary staffing pool for the initial deployment of the EMS Authority's three 220-bed Mobile Field Hospitals (MFH). They will be augmented by Disaster Health Volunteers (DHVs) or Federal Disaster Medical Assistance Teams (DMATs).

CAL-MAT missions and team structure are determined by local needs, but can generally be categorized into two types of deployment configurations:

The first deployment configuration consists of large 40+ person teams that include infrastructure support such as Admin Officer, Safety Officer, Communications Officer, Mental Health Specialist, Chaplain, Logistics and a full medical cadre of Physicians, Physician Assistants, Nurse Practitioners, Supervising Registered Nurse, Registered Nurses, Respiratory Therapists, Pharmacists, Pharmacy Techs, Paramedics, and EMTs. This team can function as a "stand-alone" medical unit to provide medical care in any of the following:

- CAL-MAT Base of Operations (BoO) where patient care is provided in a tent setting
- Mobile Field Hospital
- As replacement or augmentation staff at an affected fixed-facility medical institution
- Patient collection point during an evacuation mission
- Staffing for the medically fragile
- Staffing for a federal medical operation (under EMAC)

This full team could be deployed for mid-level and catastrophic disasters ranging in duration from one week up to a month, but are likely to be augmented by a federal Disaster Medical Assistance Team (DMAT) when the disaster receives federal declaration status.

The second deployment configuration consists of small 5+ person teams – rapid and more mobile – designed to provide medical care in any of the following:

- Wild Land Fire Medical Teams
- Medical care in shelters
- Clinics
- Medical Response Teams
- Other needs dictated by the emergency

The nature of this team's mission may change several times on any given deployment. The typical mix on this team is one Physician, two Registered Nurses, one Paramedic and one EMT.

The CAL-MAT program is a permanent part of the medical component for the state's tiered response to catastrophic disasters; teams are capable of maintaining medical care beyond the initial 72-hour period as necessary through on-going field re-supply.

The CAL-MATs will be deployed by the EMS Authority and will be supported on-site by a state Mission Support Team (MST) that will have interoperable (compatible) communications, and will interact with other agencies as necessary to meet the needs created by the disaster. These assets, combined with the strategic placement of the team's equipment caches in northern, central, and southern California provide the ability to respond within a few hours of a major medical disaster anywhere in the State of California.

III. Scope of Work

The prospective Bidder shall prepare a proposal that considers the following scope of work to be performed.

The Scope of Work calls for the prospective Bidder to have plans, the plans must be included with the proposal. The plan(s) will be reviewed and must be approved by the EMS Authority.

A. Operational Readiness, Warehousing, and Logistical Support:

1. Experience and Qualifications for Contractor

- 1.1 The Contractor shall have experience managing warehouses and medical supply caches.
- 1.2 The Contractor shall have experience managing or providing oversight of a biomedical maintenance program for durable medical equipment.
- 1.3 The Contractor shall have experience managing individuals or teams of medical professionals deployed for disaster response.
- 1.4 The Contractor shall maintain the necessary Federal, State, and Local requirements to employ physicians, nurses, paramedics, and other health care personnel and maintain a continuous quality improvement program.

2. Response Station Staffing and Warehouse Plan

- 2.1 The Contractor shall have a staffing and warehouse plan to ensure the operational readiness of the caches and all other requirements of this section are met. There are no expectations of any set days/times that the Contractor's employees are on site at the facilities and the Contractor will establish their staffing schedule to meet the performance-based deliverables listed herein. The Contractor will inform the EMS Authority of its normal hours of operation once determined.

Additionally, the Contractor will provide a call-down list of its warehouse staff to the EMS Authority for emergency notification (This will include alarm company notification for building alarms).

- 2.2 The Contractor, on a weekly basis, shall participate in Logistics conference calls with the EMS Authority and will include repairs/maintenance to the equipment, to the vehicles, to the forklifts, or to the facilities themselves. All costs associated with repair or maintenance must be pre-approved and submitted to the EMS Authority for reimbursement.
- 2.3 The Contractor, on a monthly basis, shall provide a written Status and Activity Report to the EMS Authority with complete account of all activities associated with the Contractor's responsibilities represented in this RFP. This report will include:
 - A cover sheet with the Bidder's name, address and the RFP Number
 - List of all personnel who have Contractor's permission to enter the EMS Authority's warehouses
 - List of all personnel who are certified to operate forklifts
 - Copies of Vehicle Maintenance Logs
 - Copies of Equipment Maintenance Logs
 - Copies of Equipment Cache Activity Logs
 - Documentation of all other Contractor-generated activities at the response stations, with the vehicles, or with the equipment caches
 - List of open/unresolved issues with the facilities, the vehicles, or the equipment caches
- 2.4 The Contractor shall maintain employer status for all individuals performing work on their behalf, providing salary compensation, workers' compensation insurance, any pertinent malpractice or liability insurance, and any other benefits deemed appropriate by the Contractor or required by statute. Access to the facilities for Contractor's activities is limited to employees of the Contractor, Contractor subcontractors, CAL-MAT members, and other personnel approved by the EMS Authority.
- 2.5 The Contractor shall adhere to all State and Federal occupational health and safety regulations, state public health and local County/City regulatory requirements in this process.
- 2.6 The Contractor, on an ongoing basis, shall be responsible for maintaining the CAL-MAT assigned portion of each response station in a clean and orderly manner and will share responsibility for upkeep of common areas with the other personnel (e.g. the State's Mobile Field Hospital Contractor, and EMS Authority employees) routinely working at the sites. This will include open warehouse areas, restrooms, office space, rest areas, etc. The Contractor, on a quarterly basis, will work together with other station staff to do a complete cleaning of all floor surfaces within the three response stations.
- 2.7 The Contractor shall participate in meetings including but not limited to the following as requested by the EMS Authority:
 - Quarterly program review meetings
 - Quarterly CAL-MAT Advisory Committee meetings.
 - Other meetings as requested by the EMS Authority and as deemed necessary for contract maintenance compliance.
- 2.8 The Contractor's warehouse staff shall wear CAL-MAT uniforms (4 CAL-MAT T-shirts; 4 CAL-MAT polo shirts; 2 each 511 Cargo pants-tan; 1 each 511 tactical belt; 1 EMS Authority CAL-MAT Ball cap-blue) approved and provided by the EMS Authority when performing any duties in the EMS Authority's Response Stations.

3. Operational Readiness and Logistics Plan

- 3.1 The Contractor shall have a plan to ensure the operational readiness of the medical caches and equipment through its performance of the warehousing and logistics functions. These caches are stored within the three EMS Authority Response Stations (Sacramento, Santa Clara and San Bernardino Counties). Additionally, the Contractor must meet the timelines listed for all items in Section III B. 3.1 & 3.2 Deployment and Response Time. Caches must be maintained at a minimum readiness level of 90% of each line item of the CAL MAT cache at all times, barring circumstances outside the Contractor's control. In those instances the EMS Authority will work with the Contractor to meet these requirements whenever possible, either by substitution, replacement or waiver of the specific item.
- 3.2 The Contractor will maintain the following state owned items; one medical equipment and supply cache described in Section VI. CAL-MAT Bio-Med Equipment List, three response vehicles (two 2008 GMC C-7500s & one 2007 Ford E-450), one 007 MQ Power trailer mounted diesel generator (70 Kw) and one 2007 Pace) enclosed sixteen foot trailer at each of the three state Disaster Response Stations located in Sacramento County, Santa Clara County and San Bernardino County. These response stations are large warehouse facilities where the CAL-MAT caches are co-located with the EMS Authority's Mobile Field Hospitals (MFHs) and at times, other EMS Authority disaster response resources, the CAL-MAT Contractor's employees, EMS Authority employees and employees of the MFH Contractor who maintains that program's equipment and supplies. The Contractor may exercise the option of augmenting the State-owned CAL-MAT equipment caches with additional items deemed necessary, staying within the weight limitations of the vehicles and at no cost to the state. The Contractor shall provide a written list of any and all items added to the equipment cache to the EMS Authority at least 30 days prior to addition of said items to the cache.
- 3.3 The Contractor shall ensure the three caches are maintained and ready to deploy with the exception of normally unpacked items like equipment requiring preventative maintenance, pharmaceuticals, any items removed from the cache for training, inventories or cache maintenance. Trucks shall be loaded according to the EMS Authority's load plan. The EMS Authority will work with the Contractor to improve the load plan as deemed appropriate and necessary for the safety of personnel and the protection of the vehicles and equipment. The Contractor shall also be responsible for the rehabilitation of the equipment caches following a deployment or event, to include cleaning, repair, replacement determinations (assessment of wear and tear) and reconstituting with replacement goods supplied by the EMS Authority.
- 3.4 The Contractor shall maintain eighteen (18) caches (six caches at each of the 3 stations) for immediate deployment of the Medical Response Team (MRT). The existing MRT caches are distributed equally among the 3 stations—six at each station. The Contractor shall also be responsible for the rehabilitation of the MRT caches following a deployment or event, to include cleaning, repair, replacement determinations (assessment of wear and tear) and reconstituting with replacement goods supplied by the EMS Authority.
- 3.5 The Contractor will, for the purpose of deployment, coordinate the transfer of custody for the Pharmaceutical caches from the EMS Authority's Licensed Pharmacy in accordance with the California Board of Pharmacy and Drug Enforcement Agency requirements.
- 3.6 The Contractor, on a monthly basis, shall perform battery maintenance per manufacturers' guidelines for all equipment listed in Section VI – CAL -MAT Bio-Med Equipment List. The State will be responsible for all factory-recommended maintenance on the equipment listed in Section VI. CAL-MAT Bio-Med Equipment List following manufacturers' specifications. The Contractor will maintain a written log of battery maintenance activities.
- 3.7 The Contractor will drive each vehicle a minimum of 50 miles per month and follow the Fleet Administration Plan provided by the EMS Authority as part of the maintenance plan for the three state owned vehicles. The Contractor shall be responsible for ensuring vehicles are maintained per manufacturers' recommended guidelines at state-approved maintenance facilities within the three

counties (Sacramento, Santa Clara and San Bernardino). This will include the necessary vehicle movement to and from the maintenance facility. The Contractor shall maintain a Vehicle Log Book (supplied by the EMS Authority) to track miles driven and maintenance performed. Fuel will be provided by the EMS Authority under the "Voyager" Program.

- 3.8 The Contractor will run the generators a minimum of one hour per month as part of the maintenance plan for the trailer mounted generator and the 2 Kw portable generators. This will include monthly battery maintenance on the 70Kw to ensure that the generators are maintained per manufacturers' recommended guidelines at state approved maintenance facilities within the three counties (Sacramento, Santa Clara and San Bernardino). This will include all necessary generator movement to and from the maintenance facility. All generator maintenance shall be recorded on a written log which includes one trailer mounted generator and one portable 2Kw generator that are stored at each of the three response stations. Fuel will be provided by the EMS Authority.
- 3.9 The Contractor will ensure, as part of the maintenance plan of the 16' trailer, that it is maintained per manufacturers' recommended guidelines at state-approved maintenance facilities within the three counties (Sacramento, Santa Clara and San Bernardino). This will include all necessary trailer movement to and from the maintenance facility. All trailer maintenance shall be recorded on a written log which includes one 16' trailer that is stored at each of the three response stations.
- 3.10 The Contractor, on an annual basis and after each deployment, shall conduct a full CAL-MAT cache inventory and inspection based on criteria developed by the EMS Authority at the three response stations, removing and replacing expired, missing or damaged items. At a minimum, the contractor will be required to account for missing items. The Contractor shall provide written explanations for all missing items. The EMS Authority will use this data to ensure that reasonable care in inventory control is being exercised by the Contractor. The EMS Authority will provide necessary replacement items to the Contractor for reconstitution of the caches. The annual inventory and inspections will be set on a schedule that maintains at least two of the three CAL-MAT caches in full readiness mode at all times.
- 3.11 The Contractor, in addition to the specific requirements of this RFP, may propose optional items and equipment in its response with acceptance subject solely to the EMS Authority's approval. The Contractor may exercise the option of augmenting the State-owned CAL-MAT equipment caches with additional items it deems to be necessary at no additional cost to the state. The Contractor shall provide a written list of any and all items added to the equipment cache to the EMS Authority at least 30 days prior to addition of said items to the cache. All CAL-MAT vehicles, equipment, supplies and uniforms are owned and provided by the State of California. The State of California has developed and will provide full and complete caches. Substitutions or removal of the cache items shall not be allowed without prior written approval.

B. Personnel Readiness, Deployment and Response

1. Medical Team Staffing and Recruitment Plan

- 1.1 The Contractor shall have a plan (through recruitment, training and retention) that maintains the 24/7 ability to deploy at a minimum 40 personnel simultaneously from all three regions (Northern California, Central California and Southern California) for a total of 120 people for a duration up to 2 weeks. This plan may include any combination of full-time, part-time or volunteer personnel.

- 1.2 The Contractor should be able to provide a combination of 120 personnel from the general classifications listed in the table. All personnel must be trained and equipped to live and work in austere environments. The EMS Authority-directed response may be for either (1-3) standard 40-person teams or (1-18) five-person teams (see table below).

Position	Full CAL-MAT 40 Person Team	Mobile Response Team (MRT) 5 Person
Admin. Officer	1	
Admin. Specialist	1	
Chaplain	1	
Communications Officer	1	
Communications Specialist	1	
EMT	5	1
EMT-P	6	1
Logistics Officer	2	
MD	2	1
Mental Health Specialist	1	
Nurse Practitioner (NP) or Physician's Assistant (PA)	4	
Registered Nurse (RN)	6	2
Pharmacist	1	
Pharmacy Tech	2	
Respiratory Therapist (RT)	2	
Safety Officer	1	
Supervisor RN	2	
Team Leader	1	
TOTAL STAFF	40	5

- 1.3 The Contractor shall maintain the ability to simultaneously deploy personnel in any or all of the configurations listed in the definitions below for up to a two-week period of time:
- Medical Response Team: 5 members functioning as a single resource (see table above) to provide Wild Land Fire Medical Teams, workforce protection medical care, general population shelter medical care, clinical care, or any other medical care as requested through the Standardized Emergency Management System (SEMS).
 - Medical Assistance Team: Up to 40 member team (see table above) to establish medical care in mid-level or catastrophic disasters as described previously.
- 1.4 The Contractor must also maintain the ability to rotate staff even if a Federal Disaster is declared. This may be accomplished by recruiting/training personnel pools of 100-200 per team. In California's most likely scenarios (earthquake or fire) deployments may extend beyond the 2 week period.

- 1.5 The Contractor shall provide the EMS Authority with a list of current proposed CAL-MAT team members on a monthly basis. The EMS Authority shall have the ability to reject any proposed team member. If a member not previously approved by the EMS Authority is deployed, and such team member is subsequently rejected by the EMS Authority, the EMS Authority may, in accordance with policies and procedures developed by the EMS Authority, pay all travel and other expense of such team member as allowed for in addition to any regular daily rate for the team member under this contract during which they were actually deployed prior to being rejected by the EMS Authority. Contractor shall be allowed a reasonable amount of time to replace any team member so rejected.
- 1.6 The Contractor shall provide the response capabilities outlined above within the following readiness level:
- Alert: The Contractor is informed by the EMS Authority of a specific event or incident that may result in CAL-MAT activation. This is simply a courtesy call to allow the Contractor to be aware of the situation at hand and accomplish any initial preparation they deem necessary.
 - Activated: CAL-MAT mobilization, deployment or demobilization activities are occurring. Equipment and supplies are in motion or in use. Required response time (equipment and personnel en route) is no greater than 12 hours from initial notification. The Contractor shall be responsible for transportation of personnel, either through use of privately owned vehicles (POVs), company vehicles, rental vehicles, or a combination of the above. The Contractor shall make available GPS systems for all vehicles (company owned or rented) sent out on the EMS Authority's directed activations (all state owned vehicles are so equipped). The Contractor shall provide the necessary Class "C" drivers to have the Cal-MAT cache transported in CAL-MAT vehicles to staging point.
 - Recycle: The Contractor shall be allowed, in accordance with a plan developed by the Contractor and approved by the EMS Authority, up to 14 days recycle time, commensurate with the extent of the most recent activation assignment (e.g. if two 5-person Workforce Medical Teams were deployed, the Contractor shall be allowed up to 14 days to recycle and rehabilitate all equipment and staff utilized by those two 5-person teams). The Contractor must maintain adequate staffing pools to enable deployments during recycle periods as necessary.
- 1.7 All infrastructure and business processes necessary to administer the response capability, except those provided by the DHV system, are the responsibility of the Contractor, to include but not limited to:
- Marketing and Recruitment
 - Responding to CAL-MAT inquiries forwarded by the EMS Authority within 30 days. No more than 5 inquiries will be forwarded daily from individuals who request information on becoming a CAL-MAT member.
 - Hiring
 - Employment and Human Resources
 - Information Systems tools and support
 - Activation and Mobilization
 - License Verification
 - Background Checks
 - Employee Orientation
 - Immunizations
 - Audit processes and record keeping

The Contractor shall provide copies to the EMS Authority of plans, policies and procedures used by the Contractor to achieve the above.

2. Training Plan

2.1 The Contractor shall also have a plan which includes the number of training hours per deployable personnel and deliver training to its employees and members to ensure they are legal, safe and prepared to respond in a timely manner. Also that they are prepared to perform the duties required of CAL-MAT team members. This training, which will be reviewed and approved annually by the EMS Authority, shall include but is not limited to the following components:

- CAL-MAT Equipment Cache and MRT Cache familiarity
- Position-specific training
- Personal gear organization
- Proper use of Personal Protective Equipment (PPE)
- Personal deployment readiness
- Incident Command System (ICS), 100, 200, 700 and 800

2.2 The Contractor is required to be in compliance with the California Health and Safety Code, Division 2.5, Title 22 and all other applicable laws and regulations governing any aspect of operations. The bidder's proposal shall include a plan which:

- Demonstrates results in the Contractor attaining and maintaining Advanced Life Support (ALS) Provider status through a Local EMS Agency (LEMSA) or several LEMSAs, with required medical control to facilitate deployment of its Paramedics anywhere throughout the State.
- Includes a Continuous Quality Improvement (CQI) program which meets the requirement of the regulations in Title 22 of the Health & Safety Code for all paramedic-related patient care and which is approved by the LEMSAs or LEMSAs conferring ALS Provider status.

The Contractor awarded shall have no more than 6 months from the start date of the contract to achieve the above requirements.

2.3 The Contractor shall prepare for Deployment and Response by providing the necessary training to its Support Personnel/Logisticians to allow minimal workload impact on clinical staff during setup of CAL-MAT Base of Operations (BOO) on any deployments. The EMS Authority will provide a "Train the Trainer" class for the winning Bidder on the Alaska Shelter System (shelters, HVAC's, generators, electrical systems and lighting). The optimal size set-up team is 6-8 personnel (Max. 10) for this task.

3. Deployment and Response Time

3.1 The Contractor shall also have a Deployment and Response Time plan, which must meet or exceed the minimum requirements as detailed in this section.

3.2 The Contractor shall ensure that when a full Medical assistance team is activated, they deploy within 12 hours of activation. These teams must be able to respond to any area within the State of California.

3.3 The Contractor shall ensure if MRT's are activated, that the first two MRTs from the region closest to the incident shall deploy within 6 hours. The additional MRTs within the region closest to the incident shall deploy within 10 hours. MRTs from other regions shall deploy within 12 hours of activation.

3.4 The Contractor shall be responsible for alerting staff when activated by the EMS Authority. This may be done in conjunction with the Disaster Healthcare Volunteers of California (DHV) system owned and managed by the EMS Authority, but the Contractor must have a separate back-up alert and notification system. The Contractor shall also track all deployed resources, using standard

incident Command System (ICS) structures and tools, from the departure from home base to the return of home base.

- 3.5 The Contractor shall use the DHV system for registration, credentialing, license verification, alert/notification and (when software is ready), mission management if the Contractor's employee base is volunteer. The Contractor shall submit change requests for the DHV system deemed necessary to support CAL-MAT requirements. The EMS Authority will, if programmatically or financially possible, make the requested changes to accommodate the program needs.
- 3.6 The Contractor may use the DHV online registry/notification/mission management system for its non-EMS Authority sponsored activities, to help familiarize its members with the system's functionalities and to increase the accuracy of the data therein. Usage for those events which are non-EMS Authority sponsored or quarterly system tests is limited to 1200 minutes of actual system usage per year. If such usage exceeds 1200 minutes per year, the Contractor will reimburse the EMS Authority for any excess charges incurred. The EMS Authority will provide training in DHV software to the Bidder awarded the contract.
- 3.7 The Contractor will ensure that CAL-MAT team members wear CAL-MAT uniforms approved and provided by the EMS Authority. The EMS Authority will provide shirts, pants, belts, jackets, and hats. The Contractor will ensure that the team members have and wear black, closed toed footwear suitable for field deployment duties. Any other individual personal items deemed necessary shall be the responsibility of the Contractor.

C. Annual Training

1. The Contractor shall participate in at least one annual field training event as requested and sponsored by the EMS Authority. This event will include up to 8 days of planning/recovery activities (pre and post event) and 3 actual event days. The Contractor shall ensure not less than 120 CAL-MAT members' participate in the 3-day portion of the annual event.
2. The Contractor may also choose to participate in community service events (e.g. sporting events) to provide medical assistance and live training on behalf of CAL-MAT. In such circumstances, and at the discretion/approval of the EMS Authority, the Contractor may participate while wearing CAL-MAT uniforms; use CAL-MAT equipment and represent the State of California EMS Authority. Community service events are optional for the Contractor and are not considered as Activation Events for all other considerations and criteria in this RFP. If Contractor participates in community service events not under the auspices of the CAL-MAT program, the Contractor will not use any CAL-MAT equipment, uniforms or supplies without the explicit written approval of the EMS Authority. Reconstitution of equipment/supply caches used during community service events will be at the cost of the Contractor, unless written pre-authorization has been given by the EMS Authority.

D. Optional Service

1. Bidders may supply the additional optional service of Pharmaceutical Rotation and Maintenance to the CAL-MAT program.
 - 1.1 Pharmaceutical Rotation and Maintenance of CAL-MAT drugs and supplies must be maintained in accordance with board of pharmacy and DEA requirements if vendor opts to provide these services.
 - 1.2 The CAL-MAT pharmaceutical cache contains the items listed in **Attachment 9**, Pharmaceutical List. The contractor may augment this list as they deem necessary for the response at no cost to the State.
 - 1.3 EMS Authority reserves the right to decline any optional services proposed by the Bidder.
 - 1.4 If Bidder is proposing the optional pharmaceutical service, the Bidder must include a separate cost worksheet and include all costs associated with this service.

E. Cost

1. Monthly Cost/Annual Field Exercise Training

- 1.1 The Contractor must include the monthly cost for Logistics and Operational Readiness and Personnel and Deployment. The Contractor must include a separate worksheet and include all costs per **Attachment 2** of the RFP.
- 1.2 The Contractor must include the Annual Field Exercise Training Cost held annually. The Contractor must include a separate cost worksheet per **Attachment 2** of the RFP.

2. Deployment costs

- 2.1 The Contractor must include the cost worksheet for activation/response per day for a full team of 40 and a Medical Response Team according to **Attachment 2**. The cost per day must include a full team and MRT.
- 2.2 Deployment will be a separate cost and will not be included in the Base cost for the Award. Activation/Response costs will be billed in arrears after a deployment for services. The cost is only reimbursed after a deployment for services and may be reimbursed as a separate document.

IV. PROPOSAL REQUIREMENTS (GENERAL) AND INFORMATION

This section contains instructions for the submission of a proposal. It is the responsibility of the Bidder to carefully read and follow all proposal requirements within this Request for Proposal (RFP). Compliance with the RFP instructions is mandatory for a proposal to be considered for award. Failure to comply with the RFP instructions may cause a proposal to be deemed non-compliant and non-responsive, thus ineligible for award.

A. Key Action Dates

Below is the tentative time schedule for this RFP. Dates listed below are estimates only, and subject to change at the EMS Authority's sole discretion.

Key Actions	Dates	Time
RFP available to Prospective Bidders	March 10, 2010	3:00 p.m.
Written Questions Submittal Deadline	March 16, 2010	3:00 p.m.
Final Date for Proposal Submittal	April 1, 2010	3:00 p.m.
Evaluation Process	April 5, 2010 through April 8, 2010	
Notice of Intent to Award	April 12, 2010	3:00 p.m.
Protest Period	April 13, 2010 through April 19, 2010	5:00 p.m.
Proposal Award Date	April 20, 2010	9:00 a.m.

B. General Qualifications & Experience

Proposals will be evaluated on the basis of the Bidder's ability to demonstrate a high degree of experience, training and proficiency in the conduct of various functions performed. The State EMS Authority will be considering specifically the Bidder's understanding, knowledge and experience in the following areas found in **Section III** of this RFP.

Work Plan – Scope of Work, Section A (Operational Readiness, Warehousing and Logistical Support)

Work Plan – Scope of Work, Section B (Personnel Deployment and Response)

Work Plan – Scope of Work, Section C (Annual Training)

Work Plan – Scope of Work, Section D (Optional Services)

The Bidder shall provide a brief description of the company's qualifications and experience. Joint ventures are allowable and if a joint venture is part of the bid, then both companies must include their qualifications and experience.

The Bidder shall submit their written plan, policies, protocols and program components, sufficient to ensure readiness and to meet objectives within the scope of work. These policies, protocols and program components must meet the EMS Authority's approval.

The Bidder shall describe the overall approach to the work, specific techniques that will be used, and specific administrative and operational management expertise that will be employed.

The Bidder shall include an organization chart showing functions, positions and titles of professionals in the organization, including any subcontractor firms.

The Bidder shall provide a listing of the names of the personnel that will be directly involved in providing the services under this contract, including any subcontractor employees. The listing shall identify the personnel with primary contract responsibility.

C. Cost Detail Format and Requirements

The Bidder shall list all personnel who will be working on the project. Include their titles, qualifications, and a summary of similar work or studies performed. Also include a resume for each professional, the number of hours each professional will be assigned to the project and cost per hour, and include any proposed subcontractors and their employees with resumes.

Cost Detail shall include the following required information: The Budget and at a minimum, all information listed in the Cost Detail **Attachment 2**. The budget shall include monthly cost for Section A and B of the Scope of Work, Annual cost for participating in the Field Training Exercise as stated in Section C of the Scope of Work, and Activation/Response costs to be billed in arrears after a deployment for services.

D. Questions Regarding RFP Requirements

Written questions via e-mail must be submitted by March 16, 2010. All written questions received prior to the deadline pertaining to the RFP will be answered in the form of an addendum and posted on DGS/eProcurement (Bidsync) website. Please note that no verbal information given will be binding upon the State.

All questions or concerns related to the RFP requirements must be directed in writing via e-mail by March 16, 2010 at 3:00 p.m. to:

EMS Authority
Administrative Unit/Contracts
Attn: Eric Kapucinski, Staff Services Manager I
E-Mail: Eric.Kapucinski@emsa.ca.gov
Fax: 916-322-1441

E. General Proposal Requirements

Proposals must provide straightforward and concise description of the Bidder's ability to satisfy the requirements of this RFP. The proposal must be complete and accurate. Omissions, inaccuracies or misstatements will be sufficient cause for rejection of a proposal.

A Proposal may be rejected if it is conditional or incomplete, or if it contains any alterations of form or other irregularities of any kind. The State may reject any or all proposals and may waive any immaterial deviation in a proposal. The State's waiver of immaterial defect shall in no way modify the RFP or excuse the Bidder from full compliance with all requirements if awarded the contract.

The EMS Authority may modify the RFP prior to the date fixed for submission of proposals by the issuance of an addendum and will posted on DGS/eProcurement (Bidsync) website.

The proposal must contain all of the components, information, and documents as outlined below:

Title Page

The purpose of this page is to provide in one location information needed by the EMS Authority. It must contain the following items:

- The title of the proposal, which must be the same as the title of the RFP; and
- The RFP number EMSA-09-01-R; and
- The date of the proposal;

Cover Letter/Letter of Commitment

This introductory Letter must be on the company's letterhead and include the following information and statements:

- The name and address of your company (NOTE: You may use a Post Office box, but please provide your company's street address for our records); and,
- The name, title, and signature of a company official authorized to bind the proposal

Table of Contents

Summary

The abstract shall include a brief description of the proposed project briefly summarizing the main point of the various sections of the proposal, including the features and benefits of the proposal.

Qualifications and Experience

- Qualifications and Experience of the Company (this includes copies of current business licenses, professional certifications, or other credentials, also see Section IV B)
- Written Plans, Procedures, and Policies
- Key Strategies and Techniques
- Organizational Structure
- Key Management Staff
- Resumes

Proposal

Section A - (Operational Readiness, Warehousing and Logistical Support)
Section B - (Personnel Deployment and Response)
Section C - (Annual Training)
Section D - (Optional Service; Pharmaceutical Rotation and Maintenance)

Cost and Cost Sheets

Annual Cost (Scope of Work, Section A and B)
Annual Field Exercise Training (Scope of Work, Section C)
Deployment and Response Costs
Pharmaceutical Rotation and Maintenance (Optional)

References

Appendix and Additional Information

F. Submission of Proposals

- Cost and Cost Sheets must be packaged, sealed and labeled separately within the total proposal package. The cost and cost sheets must be plainly marked labeled "COST/COST SHEETS" and "DO NOT OPEN".
- A minimum of 3 business references must be provided as directed in **Attachment 3**. Reference letters must be printed on the company's letterhead that will be providing the reference for the prospective bidder and be signed and sealed by the company's authorizing official. All reference letters will be made a part of this RFP.
- The proposal package should be prepared in the least expensive method.
- All proposals must be submitted under sealed cover and received at the EMS Authority by April 1, 2010 at 3:00 p.m. Proposals received after the deadline will not be considered.
- The original proposal must be marked "ORIGINAL". Submit four (4) copies of the proposal. Additionally the EMS Authority requires that an electronic data copy on a Compact Disc (CD) be included. The proposal packet will include five (5) total copies, one original plus four (4) hard copies and one CD. All documents contained in the original proposal package must have an original signature and must be signed by a person who is authorized to bind the proposing company. All additional proposal sets may contain photocopies of the original package. Due to limited storage space, the proposal package should be prepared in the least expensive method (i.e. cover page with staple in upper left-hand corner, no fancy bindings, spiral binding, 3-hole punch, etc.). Also to conserve paper, all proposals should use single or one-and-a-half line spacing. Please do not include lengthy, oversized company brochures. Any extra items submitted with the proposal shall be clearly marked and identified as to the name of the Bidder and the RFP number.
- Proposals must be received no later than 3:00 p.m. on April 1, 2010 and addressed as stated on the following page.

- Proposals received after the due date and time will not be considered.

Packaging/Mailing/Delivery Instructions

The Proposal package/envelope must be plainly marked with the RFP number and title, your firm name, address, and must be marked with "DO NOT OPEN" (see sample below)

SEALED PACKAGE/ENVELOPE

Proposer Name (Agency, Firm, Individual)
Complete Address
RFP Number EMSA-09-01-R
California Medical Assistance Teams (CAL-MAT)

REQUEST FOR PROPOSAL
EMSA-09-01-R California Medical Assistance Team (CAL-MAT)
DO NOT OPEN

Proposals not submitted under sealed cover and marked as indicated may be rejected. If the proposal is made under a fictitious name or business title, the actual legal name of Bidder must be provided. Label (as instructed indicated) and mail or deliver package to the following location.

MAIL OR DELIVER TO:

Emergency Medical Services Authority
Administrative Unit/Contracts
Attn: Eric Kapucinski, Staff Services Manager 1
1930 9th Street
Sacramento, CA 95811

G. Modifications and/or Withdrawal of Proposal

A Bidder may modify a proposal after its submission by requesting to withdraw their original proposal in writing. A bidder may then submit a new proposal prior to the submission deadline. Bidder modifications offered in any other manner, oral or written, will not be considered.

H. Bidder's Responsibilities

Bidders should carefully examine the entire RFP.

Costs incurred for developing proposals and in anticipation of award of the agreement are entirely the responsibility of the proposer and shall not be charged to the State of California.

Before submitting a response to this solicitation, Bidders should review, correct all errors and confirm compliance with the RFP requirements.

Questions relating to this RFP shall be in writing, directed to the person listed in the Cover Letter of this RFP. All responses will be in writing and made available to the general public.

Bidders are responsible to review, read, understand, and comply in full with the State's General Terms and Conditions (GTC 307) as listed on www.ols.dgs.ca.gov/Standard+Language.

I. Signature

Only an individual who is authorized to bind the proposing company contractually shall sign the required cover Letter for the proposal. The signature must indicate the title or position that the individual holds in the company. An unsigned proposal shall be rejected.

All documents requiring a signature must bear an original signature of a person authorized to bind the bidding company and must be duly authorized to sign the contract/agreement if selected the award.

J. Acceptance of Proposals

The EMS Authority will review all eligible proposals (i.e., those that are received in the time and manner prescribed) to determine which ones meet the criteria specified in the scoring section of this RFP.

K. Award and Protest

Notice of the proposed award shall be posted in a public place in the office of the EMS Authority and on the following internet site www.emsa.ca.gov for five (5) working days prior to awarding the Contract.

If any Bidder, prior to the award of agreement, files a protest with the EMS Authority and the Department of General Services, Office of Legal Services, 707 Third Street, 7th Floor, Suite 7-330, West Sacramento, CA 95605, on the grounds that the (protesting) proposer would have been awarded the contract had the agency correctly applied the evaluation standard in the RFP, or if the agency followed the evaluation and scoring methods in the RFP, the agreement shall not be awarded until either the protest has been withdrawn or the Department of General Services has decided the matter. It is suggested that you submit any protest by certified or registered mail.

Within five (5) days after filing the initial protest, the protesting Bidder shall file with the Department of General Services, Office of Legal Services and the EMS Authority a detailed statement specifying the grounds for the protest.

Upon award of the agreement, the Bidder must have completed and submitted to the awarding agency the Payee Data Record (STD. 204), to determine if the Bidder is subject to state income tax withholding pursuant to California Revenue and Taxation Code Sections 18662 and 26131. No payments shall be made unless a completed STD 204 has been returned to the awarding agency.

Upon award of the agreement, Contractor must have signed and submitted to the awarding agency the Contractor Certification Clauses (CCC).

L. Disposition of Proposals

Upon proposal opening, all documents submitted in response to this RFP will become the property of the State of California, and will be regarded as public records under the California Public Records Act (Government Code Section 6250 et seq.) and subject to review by the public.

Proposal packages may be returned only at the proposer's expense, unless such expense is waived by the awarding agency.

M. Contract Execution and Performance

Performance shall start no later than 30 days, or on the express date set by the awarding agency and the Contractor, after all approvals have been obtained and the agreement is fully executed. Should the Contractor fail to commence work at the agreed upon time, the awarding agency, upon five (5) days written notice to the Contractor, reserves the right to terminate the agreement. In addition, the Contractor shall be liable to the State for the difference between Contractor's Proposal price and the actual cost of performing work by another contractor.

All performance under the agreement shall be completed on or before the termination date of the contract.

N. Term of Contract

The contract shall be for a three (3) year period of time, with the possibility of two 1-year extensions at the discretion of the EMS Authority.

V. Preference Program

1. Small Business or Microbusiness Preference: <http://www.pd.dgs.ca.gov/smbus/default.htm>

If a Bidder is claiming the five percent (5%) certified Small Business or micro business preference, or is committing to subcontracting 25% or more of their bid price to one or more Certified Small Businesses or microbusinesses, Bidder must complete the Bidder Declaration Form (GSPD-05-105) you may obtain this form at <http://www.documents.dgs.ca.gov/pd/delegations/GSPD105.pdf>.

To obtain the preference, Bidder must be a certified small business at the time the bid is submitted. The Bidder **MUST** include an updated copy of their Small Business Certificate to obtain the preference.

The small business participation preference will be applied after the scores for requirements and cost have been calculated. Per Government Code, section 14835, et seq., Bidders who qualify as a California certified small business and Bidders that commit to using small business subcontractors for twenty-five percent (25%) or more of the value of the contract will be given a five percent (5%) preference for contract evaluation purposes only.

The five percent (5%) preference is calculated on the total number of points awarded to the highest scoring non-small business that is responsible and responsive to the proposal requirements. If after applying the small business preference a small business has the highest score, no further preferences would be applied as the small business cannot be displaced from the highest score position by application of any other preference.

The rules and regulations of this law, including the definition of a California certified small business for the delivery of goods and services are contained in the California Code of Regulations, Title 2, section 1896, et seq. and can be viewed online at www.pd.dgs.ca.gov/smbus

Questions regarding the small business certification or the Small Business Program should be directed to the Department of General Services, Procurement Division at (800) 559-5529 or (916) 375-4940.

2. Determination of DVBE Incentives.

In accordance with section 999.5(a) of the Military and Veterans Code, an incentive will be given to Bidders who provide California certified Disabled Veteran Business Enterprise (DVBE) participation. The State shall apply an incentive to proposals that include California certified DVBE participation. The maximum incentive for this procurement is 3% of the points available, and is based on the amount of DVBE participation obtained. The DVBE incentive percentage is applied after the scores and costs have been calculated and Small Business Preference points, if any, have been calculated and applied to points earned by the Bidder.

The State EMS Authority waives the Disabled Veteran Business Enterprises (DVBE) participation requirements for this proposal. However, if a prime bidder is a certified DVBE or commits to subcontracting with DVBE(s), it is eligible to receive a bid preference incentive.

VI. CAL-MAT Bio-Med Equipment List

- 1, Defibrillator/Monitor, Zoll Series E w/ advisory capability, 12-lead, SpO2, integrated Bluetooth, NIBP and Noninvasive pacing. (4 per cache)

AED Pro, Zoll Semi-Auto/Manual. (4 per cache)

AED Pro CPR Simulator, Zoll. (1 per cache)

Pulse Oximeter and CO2 Detector, NONIN 9843. (8 per cache)

Thermometer, SURETEMP. (10 per cache)

Ventilator, Portable, Impact/Eagle. (2 per cache)

Suction Unit, IMPACT 321 Ultra-lite. (6 per cache)

Doppler, Fetal, Meda-Sonics FP3B. (1 per cache)

Analyzer, Clinical, i-Stat, Abbott #06F16-02. (3 per cache)

Microscope, Binocular w/Light Source. (1 per cache)

Regulator, "M", 0-25 LPM. (1 per cache)

Regulator, "D", 0-25 LPM. (8 per cache)

Fifteen Kenwood, TK-5310 Handheld Radios

The above list is based on one cache. Each of the three response stations has a full cache.

VII. CalMAT Equipment and Supply Cache List

NOTE: This list represents the cache contents as of March 2009. It is, however, in a process of changing out some of the items. The changes will not significantly affect the quantity or type of items shown on this list.

NOTE: The state reserves the right to modify the list of items in the cache to meet the needs of the program, or the mission at hand. All modifications made by the state will be made at the state's expense. The state also maintains the team's pharmaceutical caches in its licenses pharmacy; these caches will be released to the Contractor's authorized designee during deployments.

Pharmaceutical caches are released on two pallets for each team, a complete list will be provided upon request. These caches are maintained by the state at no cost to the Contractor.

VIII. CalMAT Response Station and Equipment Maintenance Checklist

All Items are done at three separate locations (Sacramento, Riverside and Santa Clara Counties)	Weekly	Monthly	Quarterly	Semi-Annually	Routinely/As Needed	After All Deployments
Clean CAL-MAT portion of warehouses					X	
Repair Non-Functional Equipment					X	
Replace cache items supplied by the EMS Authority					X

ATTACHMENT 1 CHECKLIST

Proposer's Name: _____

A complete proposal or proposal package will consist of the items identified below. Complete this checklist to confirm items in the proposal. Place a check mark or "X" next to each item submitted to the State. For the proposal to be responsive, all required attachments must be returned. This checklist should be returned with your proposal package also.

Yes	No	Attachment	Name/Description
<input type="checkbox"/>	<input type="checkbox"/>	1	Checklist
<input type="checkbox"/>	<input type="checkbox"/>	2	Cost Proposal Work Sheet(s)
<input type="checkbox"/>	<input type="checkbox"/>	3	References
<input type="checkbox"/>	<input type="checkbox"/>	4	Darfur Contracting Act
<input type="checkbox"/>	<input type="checkbox"/>	5	Payee Data Record (Std. 204)
<input type="checkbox"/>	<input type="checkbox"/>	6	Contractor's Certification Clauses (CCC 307)

ATTACHMENT 2 COST SHEET(S)

SAMPLE COST PROPOSAL WORKSHEET(S)

Please submit three separate costs worksheets (cost work sheets are posted as separate document) for the following, four if providing Optional Services as described in Section III D. Optional Services.

- A) Monthly cost for Areas A (Operational Readiness, Warehousing, and Logistical Support) and B (Personnel Readiness, Deployment and Response) x 36 months
- B) Annual cost for participating in Area C (Annual Training), one per year x 3 years
- C) Activation/Deployment costs per day for both a Full Team of 40 and a Medical Response Team of 5 (two per year x 3 years)
- D) Annual cost for Area D (Optional Service; Pharmaceutical Rotation and Maintenance Plan), one per year x 3 years

ATTACHMENT 3 REFERENCES

Bidders will be scored by the years of verifiable and successful experience of any of the components found in Section III, Scope of Work, of this RFP.

A minimum of 3 business references must be provided by companies/entities that the Bidder has provided direct services to. The EMS Authority reserves the right to verify all references submitted.

Reference letters must be printed on the company's letterhead that will be providing the reference for the prospective bidder and be signed by the company's authorizing official. All reference letters will be made a part of this RFP.

Failure to submit a minimum of three reference letters with the proposal will cause proposal to be rejected and deemed non-responsive.

References should address the items and questions listed below:

Name of Organization or Business: _____
Street Address: _____
Mailing Address: _____
Contact Person: _____
Telephone Number: _____

Project(s) Name: _____
Project(s) Location: _____
Value of Cost of Service: _____
Date(s) of Service: _____
Brief Description of Service(s)
Provided: _____

Were services provided in a timely manner?

Were conflicts resolved in an appropriate fashion?

Are there any issues that were left unresolved by provider?

Would this provider be considered for future projects?

ATTACHMENT 4

DARFAR CONTRACTING ACT Certification Form

Pursuant to Public Contract Code section 10478, if a Bidder or proposer currently or within the previous three years has had business activities or other operations outside of the United States, it must certify that it is not a "scrutinized" company as defined in Public Contract Code Section 10476.

Therefore, to be eligible to submit a bid or proposal, please insert your company name and Federal ID Number and complete **only one of the following** three paragraphs (via initials for Paragraph #1 or Paragraph #2, or via initials and certification for Paragraph #3):

Proposer/Bidder Firm Name (Printed)

Federal ID Number

Printed Name and Title of Person Initialing (for Options 1 or 2)

- | | | |
|----|---|---|
| 1. | <hr/> <p>Initials</p> | We do not currently have, or we have not had within the previous three years, business activities or other operations outside of the United States. |
| | | OR |
| 2. | <hr/> <p>Initials</p> | We are a scrutinized company as defined in Public Contract Code Section 10476, but we have received written permission from the Department of General Services (DGS) to submit a bid or proposal pursuant to Public Contract Code Section 10477(b). A copy of the written permission from DGS is included with our bid or proposal. |
| | | OR |
| 3. | <hr/> <p>Initials &
Certification
Below</p> | We currently have, or we have had within the previous three years, business activities or other operations outside of the United States, but we certify below that we are not a scrutinized company as defined in Public Contract Code Section 10476. |

CERTIFICATION FOR #3

I, the office named below, CERTIFY UNDER PENALTY OF PERJURY that I am duly authorized to legally bind the prospective/bidder/applicant to the clause listed above #3. This certification is made under the laws of the State of California.

By (Authorized Signature)

Printed Name and Title of Person Signing

Date Executed

Executed in the County and State of

Note Regarding Change of Status – If your company has a change of status, with regard to this certification, during the term of your contract(s) then it is incumbent on your company to submit an updated Certification. For Questions regarding a change of status, please contact the contract's designated State Contract Administrator.

Darfur Contracting Act Certification Instructions

This Certification pertains to the Darfur Contracting Act (Act). All companies offering Non-Information Technology goods and/or services must complete this Certification.

Background

Effective January 1, 2009, procurements for goods or services must address the requirements of the Darfur Contracting Act of 2008 (Act) (Public Contract Code sections 10475, et seq.; Stats. 2008, Ch. 272). The Act was passed by the California Legislature and signed into law by the Governor to preclude State agencies generally from contracting with **SCRUTINIZED** companies that do business in the African nation of Sudan (of which the Darfur region is a part), for the reasons described in Public Contract Code section 10475.

A **SCRUTINIZED** company is a company doing specified types of business in Sudan as defined in Public Contract Code section 10476. **SCRUTINIZED** companies are ineligible to, and cannot, bid on or submit a proposal for a contract with a State agency for Non-IT goods and/or services. (Public Contract Code section 10477(a)). Therefore, Public Contract Code section 10478(a) requires a company that currently has (or within the previous three years has had) business activities or other operations outside of the United States to certify that it is not a **SCRUTINIZED** company in order to submit a bid or proposal to a State agency. (See #1 and #3 on the Certification).

A **SCRUTINIZED** company may still, however, submit a bid or proposal for a contract with a State agency for goods or services if the company first obtains permission from the Department of General Services (DGS) according to the criteria set forth in Public Contract Code section 10477(b). (See #2 on the Certification)

Instructions for Certification

- Provide the Certification to an appropriate official within your company.
- The approving official shall fill in the company name and federal ID number and initial either item #1, #2, or #3. If item 3 is initialed, then the Certification for #3 must also be completed by an individual authorized to legally bind your company.
- Include your original, completed Certification with your proposal.

Change of Status

If your company has a change of status with regard to this certification during the term of your contract, then it is incumbent on your company to submit an updated Certification. For questions regarding a change of status, please contact the contract's designated Contract Administrator.

False Certification Penalties

Pursuant to Public Contract Code section 10479, a company that submits a false certification shall be subject to a monetary civil penalty of \$250,000 or twice the amount of the contract, whichever is greater; possible contract terminations; ineligibility to bid on state contracts for a minimum of three years; and possible additional civil action, costs and fees.

PAYEE DATA RECORD (STD 204)

1	<u>Requirement to Complete Payee Data Record, STD. 204</u> A completed Payee Data Record, STD. 204, is required for payments to all non-governmental entities and will be kept on file at each State agency. Since each State agency with which you do business must have a separate STD. 204 on file, it is possible for a payee to receive this form from various State agencies. Payees who do not wish to complete the STD. 204 may elect to not do business with the State. If the payee does not complete the STD. 204 and the required payee data is not otherwise provided, payment may be reduced for federal backup withholding and nonresident State income tax withholding. Amounts reported on Information Returns (1099) are in accordance with the Internal Revenue Code and the California Revenue and Taxation Code.
2	Enter the payee's legal business name. Sole proprietorships must also include the owner's full name. An individual must list his/her full name. The mailing address should be the address at which the payee chooses to receive correspondence. Do not enter payment address or lock box information here.
3	Check the box that corresponds to the payee business type. Check only one box. Corporations must check the box that identifies the type of corporation. The State of California requires that all parties entering into business transactions that may lead to payment(s) from the State provide their Taxpayer Identification Number (TIN). The TIN is required by the California Revenue and Taxation Code Section 18646 to facilitate tax compliance enforcement activities and the preparation of Form 1099 and other information returns as required by the Internal Revenue Code Section 6109(a). The TIN for individuals and sole proprietorships is the Social Security Number (SSN). Only partnerships, estates, trusts, and corporations will enter their Federal Employer Identification Number (FEIN).
4	<u>Are you a California resident or nonresident?</u> A corporation will be defined as a "resident" if it has a permanent place of business in California or is qualified through the Secretary of State to do business in California. A partnership is considered a resident partnership if it has a permanent place of business in California. An estate is a resident if the decedent was a California resident at time of death. A trust is a resident if at least one trustee is a California resident. For individuals and sole proprietors, the term "resident" includes every individual who is in California for other than a temporary or transitory purpose and any individual domiciled in California who is absent for a temporary or transitory purpose. Generally, an individual who comes to California for a purpose that will extend over a long or indefinite period will be considered a resident. However, an individual who comes to perform a particular contract of short duration will be considered a nonresident. Payments to all nonresidents may be subject to withholding. Nonresident payees performing services in California or receiving rent, lease, or royalty payments from property (real or personal) located in California will have 7% of their total payments withheld for State income taxes. However, no withholding is required if total payments to the payee are \$1,500 or less for the calendar year. For information on Nonresident Withholding, contact the Franchise Tax Board at the numbers listed below: Withholding Services and Compliance Section: 1-888-792-4900 E-mail address: wscs.gen@ftb.ca.gov For hearing impaired with TDD, call: 1-800-822-6268 Website: www.ftb.ca.gov
5	Provide the name, title, signature, and telephone number of the individual completing this form. Provide the date the form was completed.
6	This section must be completed by the State agency requesting the STD. 204.
	<u>Privacy Statement</u> Section 7(b) of the Privacy Act of 1974 (Public Law 93-579) requires that any federal, State, or local governmental agency, which requests an individual to disclose their social security account number, shall inform that individual whether that disclosure is mandatory or voluntary, by which statutory or other authority such number is solicited, and what uses will be made of it. It is mandatory to furnish the information requested. Federal law requires that payment for which the requested information is not provided is subject to federal backup withholding and State law imposes noncompliance penalties of up to \$20,000. You have the right to access records containing your personal information, such as your SSN. To exercise that right, please contact the business services unit or the accounts payable unit of the State agency(ies) with which you transact that business. All questions should be referred to the requesting State agency listed on the bottom front of this form.

CCC 307

CERTIFICATION

I, the official named below, CERTIFY UNDER PENALTY OF PERJURY that I am duly authorized to legally bind the prospective Contractor to the clause(s) listed below. This certification is made under the laws of the State of California.

<i>Contractor/Bidder Firm Name (Printed)</i>		<i>Federal ID Number</i>
<i>By (Authorized Signature)</i>		
<i>Printed Name and Title of Person Signing</i>		
<i>Date Executed</i>	<i>Executed in the County of</i>	

CONTRACTOR CERTIFICATION CLAUSES

1. **STATEMENT OF COMPLIANCE**: Contractor has, unless exempted, complied with the nondiscrimination program requirements. (Gov. Code §12990 (a-f) and CCR, Title 2, Section 8103) (Not applicable to public entities.)

2. **DRUG-FREE WORKPLACE REQUIREMENTS**: Contractor will comply with the requirements of the Drug-Free Workplace Act of 1990 and will provide a drug-free workplace by taking the following actions:

a. Publish a statement notifying employees that unlawful manufacture, distribution, dispensation, possession or use of a controlled substance is prohibited and specifying actions to be taken against employees for violations.

b. Establish a Drug-Free Awareness Program to inform employees about:

- 1) the dangers of drug abuse in the workplace;
- 2) the person's or organization's policy of maintaining a drug-free workplace;
- 3) any available counseling, rehabilitation and employee assistance programs; and,
- 4) penalties that may be imposed upon employees for drug abuse violations.

c. Every employee who works on the proposed Agreement will:

- 1) receive a copy of the company's drug-free workplace policy statement; and,
- 2) agree to abide by the terms of the company's statement as a condition of employment on the Agreement.

Failure to comply with these requirements may result in suspension of payments under the Agreement or termination of the Agreement or both and Contractor may be ineligible for award of any future State agreements if the department determines that any of the following has occurred: the Contractor has made false certification, or violated the certification by failing to carry out the requirements as noted above. (Gov. Code §8350 et seq.)

3. **NATIONAL LABOR RELATIONS BOARD CERTIFICATION**: Contractor certifies that no more than one (1) final unappealable finding of contempt of court by a Federal court has been issued against Contractor within the immediately preceding two-year period because of Contractor's failure to comply with an order of a Federal court, which orders Contractor to comply with an order of the National Labor Relations Board. (Pub. Contract Code §10296) (Not applicable to public entities.)

4. CONTRACTS FOR LEGAL SERVICES \$50,000 OR MORE- PRO BONO REQUIREMENT: Contractor hereby certifies that contractor will comply with the requirements of Section 6072 of the Business and Professions Code, effective January 1, 2003.

Contractor agrees to make a good faith effort to provide a minimum number of hours of pro bono legal services during each year of the contract equal to the lessor of 30 multiplied by the number of full time attorneys in the firm's offices in the State, with the number of hours prorated on an actual day basis for any contract period of less than a full year or 10% of its contract with the State.

Failure to make a good faith effort may be cause for non-renewal of a state contract for legal services, and may be taken into account when determining the award of future contracts with the State for legal services.

5. EXPATRIATE CORPORATIONS: Contractor hereby declares that it is not an expatriate corporation or subsidiary of an expatriate corporation within the meaning of Public Contract Code Section 10286 and 10286.1, and is eligible to contract with the State of California.

6. SWEATFREE CODE OF CONDUCT:

a. All Contractors contracting for the procurement or laundering of apparel, garments or corresponding accessories, or the procurement of equipment, materials, or supplies, other than procurement related to a public works contract, declare under penalty of perjury that no apparel, garments or corresponding accessories, equipment, materials, or supplies furnished to the state pursuant to the contract have been laundered or produced in whole or in part by sweatshop labor, forced labor, convict labor, indentured labor under penal sanction, abusive forms of child labor or exploitation of children in sweatshop labor, or with the benefit of sweatshop labor, forced labor, convict labor, indentured labor under penal sanction, abusive forms of child labor or exploitation of children in sweatshop labor. The contractor further declares under penalty of perjury that they adhere to the Sweatfree Code of Conduct as set forth on the California Department of Industrial Relations website located at www.dir.ca.gov, and Public Contract Code Section 6108.

b. The contractor agrees to cooperate fully in providing reasonable access to the contractor's records, documents, agents or employees, or premises if reasonably required by authorized officials of the contracting agency, the Department of Industrial Relations, or the Department of Justice to determine the contractor's compliance with the requirements under paragraph (a).

7. DOMESTIC PARTNERS: For contracts over \$100,000 executed or amended after January 1, 2007, the contractor certifies that contractor is in compliance with Public Contract Code section 10295.3.

DOING BUSINESS WITH THE STATE OF CALIFORNIA

The following laws apply to persons or entities doing business with the State of California.

1. CONFLICT OF INTEREST: Contractor needs to be aware of the following provisions regarding current or former state employees. If Contractor has any questions on the status of any person rendering services or involved with the Agreement, the awarding agency must be contacted immediately for clarification.

Current State Employees (Pub. Contract Code §10410):

1). No officer or employee shall engage in any employment, activity or enterprise from which the officer or employee receives compensation or has a financial interest and which is sponsored or funded by any state agency, unless the employment, activity or enterprise is required as a condition of regular state employment.

2). No officer or employee shall contract on his or her own behalf as an independent contractor with any state agency to provide goods or services.

Former State Employees (Pub. Contract Code §10411):

- 1). For the two-year period from the date he or she left state employment, no former state officer or employee may enter into a contract in which he or she engaged in any of the negotiations, transactions, planning, arrangements or any part of the decision-making process relevant to the contract while employed in any capacity by any state agency.
- 2). For the twelve-month period from the date he or she left state employment, no former state officer or employee may enter into a contract with any state agency if he or she was employed by that state agency in a policy-making position in the same general subject area as the proposed contract within the 12-month period prior to his or her leaving state service.

If Contractor violates any provisions of above paragraphs, such action by Contractor shall render this Agreement void. (Pub. Contract Code §10420)

Members of boards and commissions are exempt from this section if they do not receive payment other than payment of each meeting of the board or commission, payment for preparatory time and payment for per diem. (Pub. Contract Code §10430 (e))

2. LABOR CODE/WORKERS' COMPENSATION: Contractor needs to be aware of the provisions which require every employer to be insured against liability for Worker's Compensation or to undertake self-insurance in accordance with the provisions, and Contractor affirms to comply with such provisions before commencing the performance of the work of this Agreement. (Labor Code Section 3700)

3. AMERICANS WITH DISABILITIES ACT: Contractor assures the State that it complies with the Americans with Disabilities Act (ADA) of 1990, which prohibits discrimination on the basis of disability, as well as all applicable regulations and guidelines issued pursuant to the ADA. (42 U.S.C. 12101 et seq.)

4. CONTRACTOR NAME CHANGE: An amendment is required to change the Contractor's name as listed on this Agreement. Upon receipt of legal documentation of the name change the State will process the amendment. Payment of invoices presented with a new name cannot be paid prior to approval of said amendment.

5. CORPORATE QUALIFICATIONS TO DO BUSINESS IN CALIFORNIA:

a. When agreements are to be performed in the state by corporations, the contracting agencies will be verifying that the contractor is currently qualified to do business in California in order to ensure that all obligations due to the state are fulfilled.

b. "Doing business" is defined in R&TC Section 23101 as actively engaging in any transaction for the purpose of financial or pecuniary gain or profit. Although there are some statutory exceptions to taxation, rarely will a corporate contractor performing within the state not be subject to the franchise tax.

c. Both domestic and foreign corporations (those incorporated outside of California) must be in good standing in order to be qualified to do business in California. Agencies will determine whether a corporation is in good standing by calling the Office of the Secretary of State.

6. RESOLUTION: A county, city, district, or other local public body must provide the State with a copy of a resolution, order, motion, or ordinance of the local governing body which by law has authority to enter into an agreement, authorizing execution of the agreement.

7. AIR OR WATER POLLUTION VIOLATION: Under the State laws, the Contractor shall not be: (1) in violation of any order or resolution not subject to review promulgated by the State Air Resources Board or an air pollution control district; (2) subject to cease and desist order not subject to review issued pursuant to Section 13301 of the Water Code for violation of waste discharge requirements or discharge prohibitions; or (3) finally determined to be in violation of provisions of federal law relating to air or water pollution.

8. PAYEE DATA RECORD FORM STD. 204: This form must be completed by all contractors that are not another state agency or other governmental entity.

Services Use Only**

☐ Exempt per:

Exhibit A (Standard Agreement)

Purpose

The purpose of this RFP is to solicit bids for a contractor to provide and coordinate all services for a complete California Medical Assistance Team (CAL-MAT) program as defined in this scope of work. At the direction of the EMS Authority, the selected contractor will manage and utilize state owned equipment, supplies and vehicles stored in three state leased warehouses. These assets will be combined with contractor recruited, credentialed and trained medical and support personnel to meet the state's established readiness and response capabilities for disaster medical response.

Background

As the lead agency responsible for coordinating the medical response to disasters in California, pursuant to Health and Safety Code 1797.150, the EMS Authority has developed a tiered response system of Ambulance Strike Teams (AST), California Medical Assistance Teams (CAL-MAT), Mobile Field Hospitals (MFH), and Mission Support Teams (MST).

The CAL-MAT program is an integral component of California's disaster medical response system. The EMS Authority has purchased vehicles and equipment caches, procured storage and response warehouses and completed the first phase of developing the CAL-MAT program. The State EMS Authority owns the vehicles, equipment and supply caches; These assets will be combined with contractor recruited, credentialed and trained medical and support personnel to meet the state's established readiness and response capabilities for disaster medical response. The CAL-MAT's are located in three locations within California: Sacramento, Santa Clara, and San Bernardino counties.

CAL-MATs are teams of health care providers such as physicians, nurses, pharmacists, paramedics, EMTs and support staff capable of providing disaster medical support in austere environments. Deployed by the EMS Authority, CAL-MATs are a part of the state's tiered disaster medical response system and provide services to augment medical care and/or re-establish medical care in areas of the State where hospitals or medical care systems have been damaged or overwhelmed.

The CAL-MATs respond to disasters primarily within California but may be deployed out of the state under the Emergency Management Assistance Compact (EMAC) at the Governor's discretion. They are self-sufficient for up to 72 hours with their cache of supplies including food, water and medicine. CAL-MAT personnel must be able to respond to departure points within 12 hours, and be self-deployable within 500 miles of the departure point.

The nature of the disaster and its effects on the community would determine the type of medical resources CAL-MAT would provide, such as: triage, first aid, treatment, nursing or medical care, prescribing and dispensing medications, or in some cases surgery. Settings might include disaster triage sites, clinics, hospitals, or other medical care settings. Additionally, CAL-MATs are intended to be the primary staffing pool for the initial deployment of the EMS Authority's three 220-bed Mobile Field Hospitals (MFH). They will be augmented by Disaster Health Volunteers (DHVs) or Federal Disaster Medical Assistance Teams (DMATs).

CAL-MAT missions and team structure are determined by local needs, but can generally be categorized into two types of deployment configurations:

The first deployment configuration consists of large 40+ person teams that include infrastructure support such as Admin Officer, Safety Officer, Communications Officer, Mental Health Specialist, Chaplain, Logistics and a full medical cadre of Physicians, Physician Assistants, Nurse Practitioners, Supervising Registered Nurse, Registered Nurses, Respiratory Therapists, Pharmacists, Pharmacy Techs, Paramedics, and EMTs. This team can function as a "stand-alone" medical unit to provide medical care in any of the following:

- CAL-MAT Base of Operations (BoO) where patient care is provided in a tent setting
- Mobile Field Hospital
- As replacement or augmentation staff at an affected fixed-facility medical institution
- Patient collection point during an evacuation mission
- Staffing for the medically fragile
- Staffing for a federal medical operation (under EMAC)

This full team could be deployed for mid-level and catastrophic disasters ranging in duration from one week up to a month, but are likely to be augmented by a federal Disaster Medical Assistance Team (DMAT) when the disaster receives federal declaration status.

The second deployment configuration consists of small 5+ person teams – rapid and more mobile – designed to provide medical care in any of the following:

- Wild Land Fire Medical Teams
- Medical care in shelters
- Clinics
- Medical Response Teams
- Other needs dictated by the emergency

The nature of this team's mission may change several times on any given deployment. The typical mix on this team is one Physician, two Registered Nurses, one Paramedic and one EMT.

The CAL-MAT program is a permanent part of the medical component for the state's tiered response to catastrophic disasters; teams are capable of maintaining medical care beyond the initial 72-hour period as necessary through on-going field re-supply.

The CAL-MATs will be deployed by the EMS Authority and will be supported on-site by a state Mission Support Team (MST) that will have interoperable (compatible) communications, and will interact with other agencies as necessary to meet the needs created by the disaster. These assets, combined with the strategic placement of the team's equipment caches in northern, central, and southern California provide the ability to respond within a few hours of a major medical disaster anywhere in the State of California.

Scope of Work

The prospective Bidder shall prepare a proposal that considers the following scope of work to be performed.

A. Operational Readiness, Warehousing, and Logistical Support:

1. Experience and Qualifications for Contractor

- 1.1 The Contractor shall have experience managing warehouses and medical supply caches.
- 1.2 The Contractor shall have experience managing or providing oversight of a biomedical maintenance program for durable medical equipment.
- 1.3 The Contractor shall have experience managing individuals or teams of medical professionals deployed for disaster response.
- 1.4 The Contractor shall maintain the necessary Federal, State, and Local requirements to employ physicians, nurses, paramedics, and other health care personnel and maintain a continuous quality improvement program.

2. Response Station Staffing and Warehouse Plan

- 2.1 The Contractor shall have a staffing and warehouse plan to ensure the operational readiness of the caches and all other requirements of this section are met. There are no expectations of any set days/times that the Contractor's employees are on site at the facilities and the Contractor will establish their staffing schedule to meet the performance-based deliverables listed herein. The Contractor will inform the EMS Authority of its normal

hours of operation once determined. Additionally, the Contractor will provide a call-down list of its warehouse staff to the EMS Authority for emergency notification (This will include alarm company notification for building alarms).

- 2.2 The Contractor, on a weekly basis, shall participate in Logistics conference calls with the EMS Authority and will include repairs/maintenance to the equipment, to the vehicles, or to the facilities themselves. All costs associated with repair or maintenance must be pre-approved and submitted to the EMS Authority for reimbursement.
- 2.3 The Contractor, on a monthly basis, shall provide a written Status and Activity Report to the EMS Authority with complete account of all activities associated with the Contractor's responsibilities represented in this RFP. This report will include:
 - A cover sheet with the Bidder's name, address and the RFP Number
 - List of all personnel who have Contractor's permission to enter the EMS Authority's warehouses
 - Copies of Vehicle Maintenance Logs
 - Copies of Equipment Maintenance Logs
 - Copies of Equipment Cache Activity Logs
 - Documentation of all other Contractor-generated activities at the response stations, with the vehicles, or with the equipment caches
 - List of open/unresolved issues with the facilities, the vehicles, or the equipment caches
- 2.4 The Contractor shall maintain employer status for all individuals performing work on their behalf, providing salary compensation, workers' compensation insurance, any pertinent malpractice or liability insurance, and any other benefits deemed appropriate by the Contractor or required by statute. Access to the facilities for Contractor's activities is limited to employees of the Contractor, Contractor subcontractors, CAL-MAT members, and other personnel approved by the EMS Authority.
- 2.5 The Contractor shall adhere to all State and Federal occupational health and safety regulations, state public health and local County/City regulatory requirements in this process.
- 2.6 The Contractor, on an ongoing basis, shall be responsible for maintaining the CAL-MAT assigned portion of each response station in a clean and orderly manner and will share responsibility for upkeep of common areas with the other personnel (e.g. the State's Mobile Field Hospital Contractor, and EMS Authority employees) routinely working at the sites. This will include open warehouse areas, restrooms, office space, rest areas, etc. The Contractor, on a quarterly basis, will work together with other station staff to do a complete cleaning of all floor surfaces within the three response stations.
- 2.7 The Contractor shall participate in meetings including but not limited to the following as requested by the EMS Authority:
 - Quarterly program review meetings
 - Quarterly CAL-MAT Advisory Committee meetings.
 - Other meetings as requested by the EMS Authority and as deemed necessary for contract maintenance compliance.
- 2.8 The Contractor will ensure that CAL-MAT team members wear CAL-MAT uniforms (4 CAL-MAT T-shirts; 4 CAL-MAT Polo shirts; 2 each 511 Cargo pants, tan; 1 511 tactical belt; 1 EMS Authority CAL-MAT ball cap, blue) approved and provided by the EMS Authority. The Contractor will ensure that the team members have and wear black, closed toed footwear suitable for field deployment duties. Any other individual personal items deemed necessary shall be the responsibility of the Contractor.

3. Operational Readiness and Logistics Plan

- 3.1 The Contractor shall have a plan to ensure the operational readiness of the medical caches and equipment through its performance of the warehousing and logistics functions. These caches are stored within the three EMS Authority Response Stations (Sacramento, Santa Clara and San Bernardino Counties). Additionally, the Contractor must meet the timelines listed for all items in Section III B. 3.1 & 3.2 Deployment and Response Time. Caches must contain a minimum readiness level of minimum 90% completion of each line item of the CAL MAT cache at all times, with all critical items prepared, barring circumstances outside the Contractor's control. In those instances the EMS Authority will work with the Contractor to meet these requirements whenever possible, either by substitution, replacement or waiver of the specific item.
- 3.2 The Contractor will maintain the following state owned items; one medical equipment and supply cache described in Section VI. CAL-MAT Bio-Med Equipment List, three response vehicles (two 2008 GMC C-7500s & one 2007 Ford E-450), one 007 MQ Power trailer mounted diesel generator (70 Kw) and one 2007 Pace) enclosed sixteen foot trailer at each of the three state Disaster Response Stations located in Sacramento County, Santa Clara County and San Bernardino County. These response stations are large warehouse facilities where the CAL-MAT caches are co-located with the EMS Authority's Mobile Field Hospitals (MFHs) and at times, other EMS Authority disaster response resources, the CAL-MAT Contractor's employees, EMS Authority employees and employees of the MFH Contractor who maintains that program's equipment and supplies. The Contractor may exercise the option of augmenting the State-owned CAL-MAT equipment caches with additional items deemed necessary, staying within the weight limitations of the vehicles and at no cost to the state. The Contractor shall provide a written list of any and all items added to the equipment cache to the EMS Authority at least 30 days prior to addition of said items to the cache.
- 3.3 The Contractor shall ensure the three caches are maintained and ready to deploy with the exception of normally unpacked items like equipment requiring preventative maintenance, pharmaceuticals, any items removed from the cache for training, inventories or cache maintenance. Trucks shall be loaded according to the EMS Authority's load plan. The EMS Authority will work with the Contractor to improve the load plan as deemed appropriate and necessary for the safety of personnel and the protection of the vehicles and equipment. The Contractor shall also be responsible for the rehabilitation of the equipment caches following a deployment or event, to include cleaning, repair, replacement determinations (assessment of wear and tear) and reconstituting with replacement goods supplied by the EMS Authority.
- 3.4 The Contractor shall maintain eighteen (18) caches (six caches at each of the 3 stations) for immediate deployment of the Medical Response Team (MRT). The existing MRT caches are distributed equally among the 3 stations—six at each station. The Contractor shall also be responsible for the rehabilitation of the MRT caches following a deployment or event to include cleaning, repair, replacement determinations (assessment of wear and tear) and reconstituting with replacement goods supplied by the EMS Authority.
- 3.5 The Contractor will, for the purpose of deployment, coordinate the transfer of custody for the Pharmaceutical caches from the EMS Authority's Licensed Pharmacy in accordance with the California Board of Pharmacy and Drug Enforcement Agency requirements.
- 3.6 The Contractor, on a monthly basis, shall perform battery maintenance per manufacturers' guidelines for all equipment listed in Section VI – CAL-MAT Bio-Med Equipment List. The State will be responsible for all factory-recommended maintenance on the equipment listed in Section VI – CAL-MAT Bio-Med Equipment list following manufacturers' specifications. The Contractor will maintain a written log of battery maintenance activities.

- 3.7 The Contractor will drive each vehicle a minimum of 50 miles per month and follow the Fleet Administration Plan provided by the EMS Authority as part of the maintenance plan for the three state owned vehicles. The Contractor shall be responsible for ensuring vehicles are maintained per manufacturers' recommended guidelines at state-approved maintenance facilities within the three counties (Sacramento, Santa Clara and San Bernardino). This will include the necessary vehicle movement to and from the maintenance facility. The Contractor shall maintain a Vehicle Log Book (supplied by the EMS Authority) to track miles driven and maintenance performed. Fuel will be provided by the EMS Authority under the "Voyager" Program.
- 3.8 The Contractor will run the generators a minimum of one hour per month as part of the maintenance plan for the trailer mounted generator and the 2 Kw portable generators. This will include monthly battery maintenance on the 70Kw to ensure that the generators are maintained per manufacturers' recommended guidelines at state approved maintenance facilities within the three counties (Sacramento, Santa Clara and San Bernardino). This will include all necessary generator movement to and from the maintenance facility. All generator maintenance shall be recorded on a written log which includes one trailer mounted generator and one portable 2Kw generator that are stored at each of the three response stations. Fuel will be provided by the EMS Authority.
- 3.9 The Contractor will ensure, as part of the maintenance plan of the 16' trailer, that it is maintained per manufacturers' recommended guidelines at state-approved maintenance facilities within the three counties (Sacramento, Santa Clara and San Bernardino). This will include all necessary trailer movement to and from the maintenance facility. All trailer maintenance shall be recorded on a written log which includes one 16' trailer that is stored at each of the three response stations.
- 3.10 The Contractor, on an annual basis and after each deployment, shall conduct a full CAL-MAT cache inventory and inspection based on criteria developed by the EMS Authority at the three response stations, removing and replacing expired, missing or damaged items. The EMS Authority will provide necessary replacement items to the Contractor for reconstitution of the caches. The annual inventory and inspections will be set on a schedule that maintains at least two caches in full readiness mode at all times.
- 3.11 The Contractor may propose optional items and equipment in its response with acceptance subject solely to the EMS Authority's approval. The Contractor may exercise the option of augmenting the State-owned CAL-MAT equipment caches with additional items it deems to be necessary at no additional cost to the state. The Contractor shall provide a written list of any and all items added to the equipment cache to the EMS Authority at least 30 days prior to addition of said items to the cache. All CAL-MAT vehicles, equipment, supplies and uniforms are owned and provided by the State of California. The State of California has developed and will provide full and complete caches. Substitutions or removal of the cache items shall not be allowed without prior written approval.

B. Personnel Readiness, Deployment and Response

1. Medical Team Staffing and Recruitment Plan

- 1.1 The Contractor shall have a plan (through recruitment, training and retention) that maintains the 24/7 ability to deploy at a minimum 40 personnel simultaneously from all three regions (Northern California, Central California and Southern California) for a total of 120 people for a duration up to 2 weeks. This plan may include any combination of full-time, part-time or volunteer personnel.

- 1.2 The Contractor should be able to provide a combination of 120 personnel from the general classifications listed in the table. All personnel must be trained and equipped to live and work in austere environments. The EMS Authority-directed response may be for either (1-3) standard 40-person teams or (1-18) five-person teams (see table below).

Position	Full CAL-MAT 40 Person Team	Mobile Response Team (MRT) 5 Person
Admin. Officer	1	
Admin. Specialist	1	
Chaplain	1	
Communications Officer	1	
Communications Specialist	1	
EMT	5	1
EMT-P	6	1
Logistics Officer	2	
MD	2	1
Mental Health Specialist	1	
Nurse Practitioner (NP) or Physician's Assistant (PA)	4	
Registered Nurse (RN)	6	2
Pharmacist	1	
Pharmacy Tech	2	
Respiratory Therapist (RT)	2	
Safety Officer	1	
Supervisor RN	2	
Team Leader	1	
TOTAL STAFF	40	5

- 1.3 The Contractor shall maintain the ability to simultaneously deploy personnel in any or all of the configurations listed in the definitions below for up to a two-week period of time:
- Medical Response Team: 5 members functioning as a single resource (see table above) to provide Wild Land Fire Medical Teams, workforce protection medical care, general population shelter medical care, clinical care, or any other medical care as requested through the Standardized Emergency Management System (SEMS).
 - Medical Assistance Team: Up to 40 member team (see table above) to establish medical care in mid-level or catastrophic disasters as described previously.
- 1.4 The Contractor must also maintain the ability to rotate staff even if a Federal Disaster is declared. This may be accomplished by recruiting/training personnel pools of 100-200 per team. In California's most likely scenarios (earthquake or fire) deployments may extend beyond the 2 week period.
- 1.5 The Contractor shall provide the EMS Authority with a list of current proposed CAL-MAT team members on a monthly basis. The EMS Authority shall have the ability to not approve any proposed team member. If a member not previously approved by the EMS Authority is deployed, and such team member is subsequently rejected by the EMS Authority, the EMS Authority may, in accordance with policies and procedures developed by the EMS Authority pay all travel and other expense of such team member as allowed for in this agreement in addition to any regular daily rate for the team member under this contract during which they were actually deployed prior to being rejected by the EMS Authority. Contractor shall be allowed a reasonable amount of time to replace any team member so rejected.

1.6 The Contractor shall provide the response capabilities outlined above within the following readiness level:

- Alert: The Contractor is informed by the EMS Authority of a specific event or incident that may result in CAL-MAT activation. This is simply a courtesy call to allow the Contractor to be aware of the situation at hand and accomplish any initial preparation they deem necessary.
- Activated: CAL-MAT mobilization, deployment or demobilization activities are occurring. Equipment and supplies are in motion or in use. Required response time (equipment and personnel en route) is no greater than 12 hours from initial notification. The Contractor shall be responsible for transportation of personnel, either through use of privately owned vehicles (POVs), company vehicles, rental vehicles, or a combination of the above. The Contractor shall make available GPS systems for all vehicles (company owned or rented) sent out on the EMS Authority's directed activations (all state owned vehicles are so equipped). The Contractor shall provide the necessary Class "C" drivers to have the Cal-MAT cache transported in CAL-MAT vehicles to staging point.
- Recycle: The Contractor shall be allowed, in accordance with a plan developed by the Contractor and approved by the EMS Authority, up to 14 days recycle time, commensurate with the extent of the most recent activation assignment (e.g. if two 5-person Workforce Medical Teams were deployed, the Contractor shall be allowed up to 14 days to recycle and rehabilitate all equipment and staff utilized by those two 5-person teams). The Contractor must maintain adequate staffing pools to enable deployments during recycle periods as necessary.

1.7 All infrastructure and business processes necessary to administer the response capability, except those provided by the DHV system, are the responsibility of the Contractor, to include but not limited to:

- Marketing and Recruitment
- Responding to CAL-MAT inquiries forwarded by the EMS Authority within 30 days. No more than 5 inquiries will be forwarded daily from individuals who request information on becoming a CAL-MAT member.
- Hiring
- Employment and Human Resources
- Information Systems tools and support
- Activation and Mobilization
- License Verification
- Background Checks
- Employee Orientation
- Immunizations
- Audit processes and record keeping

The Contractor shall provide copies to the EMS Authority of plans, policies and procedures used by the contractor to achieve the above.

2. Training Plan

2.1 The Contractor shall also have a plan and deliver training to its employees and members to ensure they are legal, safe and prepared to respond in a timely manner. Also that they are prepared to perform the duties required of CAL-MAT team members. This training, which will be reviewed and approved annually by the EMS Authority, shall include but is not limited to the following components:

- CAL-MAT Equipment Cache and MRT Cache familiarity
- Position-specific training

- Personal gear organization
- Proper use of Personal Protection Equipment (PPE)
- Personal deployment readiness
- Incident Command System (ICS), 100, 200, 700 and 800

2.2 The Contractor is required to be in compliance with the California Health and Safety Code, Division 2.5, Title 22 and all other applicable laws and regulations governing any aspect of operations. The bidder's proposal shall include a plan which:

- Demonstrates results in the Contractor attaining and maintaining Advanced Life Support (ALS) Provider status through a Local EMS Agency (LEMSA) or several LEMSAs, with required medical control to facilitate deployment of its Paramedics anywhere throughout the State.
- Includes a Continuous Quality Improvement (CQI) program which meets the requirement of the regulations in Title 22 of the Health & Safety Code for all paramedic-related patient care and which is approved by the LEMSAs or LEMSAs conferring ALS Provider status.

The Contractor awarded shall have no more than 6 months from the start date of the contract to achieve the above requirements.

2.3 The Contractor shall prepare for Deployment and Response by providing the necessary training to its Support Personnel/Logisticians to allow minimal workload impact on clinical staff during setup of CAL-MAT Base of Operations (BOO) on any deployments. The EMS Authority will provide a "Train the Trainer" class for the winning Bidder on the Alaska Shelter System (shelters, HVAC's, generators, electrical systems and lighting). The optimal size set-up team is 6-8 personnel (Max. 10) for this task.

3. Deployment and Response Time

- 3.1 The Contractor shall also have a Deployment and Response Time plan, which must meet or exceed the minimum requirements as detailed in this section.
- 3.2 The Contractor shall ensure that when a full Medical assistance team is activated, they deploy within 12 hours of activation. These teams must be able to respond to any area within the State of California.
- 3.3 The Contractor shall ensure if MRT's are activated, that the first two MRTs from the region closest to the incident shall deploy within 6 hours. The additional MRTs within the region closest to the incident shall deploy within 10 hours. MRTs from other regions shall deploy with 12 hours of activation.
- 3.4 The Contractor shall be responsible for alerting staff when activated by the EMS Authority. This may be done in conjunction with the Disaster Healthcare Volunteers of California (DHV) system owned and managed by the EMS Authority, but the Contractor must have a separate back-up alert and notification system. The Contractor shall also track all deployed resources, using standard incident Command System (ICS) structures and tools, from the departure from home base to the return of home base.
- 3.5 The Contractor shall use the DHV system for registration, credentialing, license verification, alert/notification and (when software is ready), mission management if the Contractor's employee base is volunteer. The Contractor shall submit change requests for the DHV system deemed necessary to support CAL-MAT requirements. The EMS Authority will, if programmatically or financially possible, make the requested changes to accommodate the program needs.

- 3.6 The Contractor may use the DHV online registry/notification/mission management system for its non-EMS Authority sponsored activities, to help familiarize its members with the system's functionalities and to increase the accuracy of the data therein. Usage for those events which are non-EMS Authority sponsored or quarterly system tests is limited to 1200 minutes of actual system usage per year. If such usage exceeds 1200 minutes per year, the Contractor will reimburse the EMS Authority for any excess charges incurred. The EMS Authority will provide training in DHV software to the Bidder awarded the contract.
- 3.7 The Contractor will ensure that CAL-MAT team members wear CAL-MAT uniforms approved and provided by the EMS Authority. The EMS Authority will provide shirts, pants, belts, jackets, and hats. The Contractor will ensure that the team members have and wear black, closed toed footwear suitable for field deployment duties. Any other individual personal items deemed necessary shall be the responsibility of the Contractor.

C. Annual Training

1. The Contractor shall participate in at least one annual field training event as requested and sponsored by the EMS Authority. This event will include up to 8 days of planning/recovery activities (pre and post event) and 3 actual event days. The Contractor shall ensure not less than 120 CAL-MAT members' participate in the 3-day portion of the annual event.
2. The Contractor may also choose to participate in community service events (e.g. sporting events) to provide medical assistance and live training on behalf of CAL-MAT. In such circumstances, and at the discretion/approval of the EMS Authority, the Contractor may participate while wearing CAL-MAT uniforms; use CAL-MAT equipment and represent the State of California EMS Authority. Community service events are optional for the Contractor and are not considered as Activation Events for all other considerations and criteria in this RFP. If Contractor participates in community service events not under the auspices of the CAL-MAT program, the Contractor will not use any CAL-MAT equipment, uniforms or supplies without the explicit written approval of the EMS Authority. Reconstitution of equipment/supply caches used during community service events will be at the cost of the Contractor, unless written pre-authorization has been given by the EMS Authority.

The project representatives during the term of this agreement will be:

EXHIBIT B
(Standard Agreement)

BUDGET DETAIL AND PAYMENT PROVISIONS

1) Invoicing and Payment

- A. For services satisfactorily rendered, and upon receipt and approval of the invoices, the State agrees to compensate the Contractor for actual expenditures incurred in accordance with the budget in Exhibit B-1, which is attached hereto and made a part of this Agreement.
- B. Invoices shall include the Contractor's Name, Period Covered and Agreement Number, all backup documentation (P.O., TECs, Vendor Invoices, payroll, etc.) and shall be submitted not more frequently than monthly in arrears to:

Emergency Medical Services Authority
Administrative Unit/Contracts
1930 9th Street
Sacramento, CA 95811

All travel will be in accordance with DPA rates. Final Invoice(s) must be submitted no later than 30 days following the end of the contract.

2) Budget Contingency Clause

- A. It is mutually agreed that if the Budget Act of the current year and/or any subsequent years covered under this Agreement does not appropriate sufficient funds for the program, this Agreement shall be of no further force and effect. In this event, the State shall have no liability to pay any funds whatsoever to Contractor or to furnish any other considerations under this Agreement and Contractor shall not be obligated to perform any provisions of this Agreement.
- B. If funding for any fiscal year is reduced or deleted by the Budget Act for purposes of this program, the State shall have the option to either cancel this Agreement with no liability occurring to the State, or offer an agreement amendment to Contractor to reflect the reduced amount.

3. Prompt Payment Clause

Payment will be made in accordance with, and within the time specified in, Government Code Chapter 4.5, commencing with Section 927.

EXHIBIT C
(Standard Agreement)

GTC-307

GENERAL TERMS AND CONDITIONS

1. **APPROVAL**: This Agreement is of no force or effect until signed by both parties and approved by the Department of General Services, if required. Contractor may not commence performance until such approval has been obtained.
2. **AMENDMENT**: No amendment or variation of the terms of this Agreement shall be valid unless made in writing, signed by the parties and approved as required. No oral understanding or Agreement not incorporated in the Agreement is binding on any of the parties.
3. **ASSIGNMENT**: This Agreement is not assignable by the Contractor, either in whole or in part, without the consent of the State in the form of a formal written amendment.
4. **AUDIT**: Contractor agrees that the awarding department, the Department of General Services, the Bureau of State Audits, or their designated representative shall have the right to review and to copy any records and supporting documentation pertaining to the performance of this Agreement. Contractor agrees to maintain such records for possible audit for a minimum of three (3) years after final payment, unless a longer period of records retention is stipulated. Contractor agrees to allow the auditor(s) access to such records during normal business hours and to allow interviews of any employees who might reasonably have information related to such records. Further, Contractor agrees to include a similar right of the State to audit records and interview staff in any subcontract related to performance of this Agreement. (Gov. Code §8546.7, Pub. Contract Code §10115 et seq., CCR Title 2, Section 1896).
5. **INDEMNIFICATION**: Contractor agrees to indemnify, defend and save harmless the State, its officers, agents and employees from any and all claims and losses accruing or resulting to any and all contractors, subcontractors, suppliers, laborers, and any other person, firm or corporation furnishing or supplying work services, materials, or supplies in connection with the performance of this Agreement, and from any and all claims and losses accruing or resulting to any person, firm or corporation who may be injured or damaged by Contractor in the performance of this Agreement.
6. **DISPUTES**: Contractor shall continue with the responsibilities under this Agreement during any dispute.
7. **TERMINATION FOR CAUSE**: The State may terminate this Agreement and be relieved of any payments should the Contractor fail to perform the requirements of this Agreement at the time and in the manner herein provided. In the event of such termination the State may proceed with the work in any manner deemed proper by the State. All costs to the State shall be deducted from any sum due the Contractor under this Agreement and the balance, if any, shall be paid to the Contractor upon demand.
8. **INDEPENDENT CONTRACTOR**: Contractor, and the agents and employees of Contractor, in the performance of this Agreement, shall act in an independent capacity and not as officers or employees or agents of the State.
9. **RECYCLING CERTIFICATION**: The Contractor shall certify in writing under penalty of perjury, the minimum, if not exact, percentage of post consumer material as defined in the Public Contract Code Section 12200, in products, materials, goods, or supplies offered or sold to the State regardless of whether the product meets the requirements of Public Contract Code Section 12209. With respect to printer or duplication cartridges that comply with the requirements of Section 12156(e), the certification required by this subdivision shall specify that the cartridges so comply (Pub. Contract Code §12205).

10. NON-DISCRIMINATION CLAUSE: During the performance of this Agreement, Contractor and its subcontractors shall not unlawfully discriminate, harass, or allow harassment against any employee or applicant for employment because of sex, race, color, ancestry, religious creed, national origin, physical disability (including HIV and AIDS), mental disability, medical condition (cancer), age (over 40), marital status, and denial of family care leave. Contractor and subcontractors shall insure that the evaluation and treatment of their employees and applicants for employment are free from such discrimination and harassment. Contractor and subcontractors shall comply with the provisions of the Fair Employment and Housing Act (Gov. Code §12990 (a-f) et seq.) and the applicable regulations promulgated thereunder (California Code of Regulations, Title 2, Section 7285 et seq.). The applicable regulations of the Fair Employment and Housing Commission implementing Government Code Section 12990 (a-f), set forth in Chapter 5 of Division 4 of Title 2 of the California Code of Regulations, are incorporated into this Agreement by reference and made a part hereof as if set forth in full. Contractor and its subcontractors shall give written notice of their obligations under this clause to labor organizations with which they have a collective bargaining or other Agreement.

Contractor shall include the nondiscrimination and compliance provisions of this clause in all subcontracts to perform work under the Agreement.

11. CERTIFICATION CLAUSES: The CONTRACTOR CERTIFICATION CLAUSES contained in the document CCC 307 are hereby incorporated by reference and made a part of this Agreement by this reference as if attached hereto.

12. TIMELINESS: Time is of the essence in this Agreement.

13. COMPENSATION: The consideration to be paid Contractor, as provided herein, shall be in compensation for all of Contractor's expenses incurred in the performance hereof, including travel, per diem, and taxes, unless otherwise expressly so provided.

14. GOVERNING LAW: This contract is governed by and shall be interpreted in accordance with the laws of the State of California.

15. ANTITRUST CLAIMS: The Contractor by signing this agreement hereby certifies that if these services or goods are obtained by means of a competitive bid, the Contractor shall comply with the requirements of the Government Codes Sections set out below.

a. The Government Code Chapter on Antitrust claims contains the following definitions:

- 1). "Public purchase" means a purchase by means of competitive bids of goods, services, or materials by the State or any of its political subdivisions or public agencies on whose behalf the Attorney General may bring an action pursuant to subdivision (c) of Section 16750 of the Business and Professions Code.
- 2). "Public purchasing body" means the State or the subdivision or agency making a public purchase. Government Code Section 4550.

b. In submitting a bid to a public purchasing body, the bidder offers and agrees that if the bid is accepted, it will assign to the purchasing body all rights, title, and interest in and to all causes of action it may have under Section 4 of the Clayton Act (15 U.S.C. Sec. 15) or under the Cartwright Act (Chapter 2 (commencing with Section 16700) of Part 2 of Division 7 of the Business and Professions Code), arising from purchases of goods, materials, or services by the bidder for sale to the purchasing body pursuant to the bid. Such assignment shall be made and become effective at the time the purchasing body tenders final payment to the bidder. Government Code Section 4552.

c. If an awarding body or public purchasing body receives, either through judgment or settlement, a monetary recovery for a cause of action assigned under this chapter, the assignor shall be entitled to receive reimbursement for actual legal costs incurred and may, upon demand, recover from the public

body any portion of the recovery, including treble damages, attributable to overcharges that were paid by the assignor but were not paid by the public body as part of the bid price, less the expenses incurred in obtaining that portion of the recovery. Government Code Section 4553.

d. Upon demand in writing by the assignor, the assignee shall, within one year from such demand, reassign the cause of action assigned under this part if the assignor has been or may have been injured by the violation of law for which the cause of action arose and (a) the assignee has not been injured thereby, or (b) the assignee declines to file a court action for the cause of action. See Government Code Section 4554.

16. CHILD SUPPORT COMPLIANCE ACT: "For any Agreement in excess of \$100,000, the contractor acknowledges in accordance with Public Contract Code 7110, that:

a). The contractor recognizes the importance of child and family support obligations and shall fully comply with all applicable state and federal laws relating to child and family support enforcement, including, but not limited to, disclosure of information and compliance with earnings assignment orders, as provided in Chapter 8 (commencing with section 5200) of Part 5 of Division 9 of the Family Code; and

b) The contractor, to the best of its knowledge is fully complying with the earnings assignment orders of all employees and is providing the names of all new employees to the New Hire Registry maintained by the California Employment Development Department."

17. UNENFORCEABLE PROVISION: In the event that any provision of this Agreement is unenforceable or held to be unenforceable, then the parties agree that all other provisions of this Agreement have force and effect and shall not be affected thereby.

18. PRIORITY HIRING CONSIDERATIONS: If this Contract includes services in excess of \$200,000, the Contractor shall give priority consideration in filling vacancies in positions funded by the Contract to qualified recipients of aid under Welfare and Institutions Code Section 11200 in accordance with Pub. Contract Code §10353.

EXHIBIT D
(Standard Agreement)

SPECIAL TERMS AND CONDITIONS

1. **Disputes:** Any dispute concerning a question of fact arising under this contract that is not disposed of by agreement shall be decided by the Director of the EMS Authority, who may consider written or verbal evidence submitted by the Contractor. The decision of the Director of the EMS Authority, issued in writing, shall be conclusive and binding on both parties to the contract on all questions of fact considered and determined by the Director of the EMS Authority.
2. **Amendments:** This agreement may be amended only by mutual written consent of the parties hereto. Verbal agreements are of no force or effect.
3. **Subcontractors:** All subcontracts, MOUs or Agreements (hereafter referred to as a subcontract) entered into by the Contractor to carry out the terms of this agreement shall be in writing and contain all of the following:
 - a) Full disclosure of the method and amount of compensation or other consideration to be received by the subcontractor from Contractor.
 - b) Specification of the services to be provided.
 - c) Specification that the subcontract shall be governed by and construed in accordance with all laws, regulations, and contractual obligations binding on Contractor.
 - d) Subcontractor's agreement to submit reports as required by Contractor.

Subcontracts: All consultant/subcontracts exceeding \$2,500 must have advance approval by the EMS Authority.

Public Records: Subcontracts entered into by the Contractor pursuant to this Agreement and all information received in accordance with this section shall be a public record on file with the EMS Authority.

The Contractor shall secure the agreement of any subcontractor to make all of its books and records, pertaining to the goods and services furnished under the terms of the subcontract, available for inspection, examination or copying by State, as follows: at all reasonable time at the subcontractor's place of business, or at such other mutually agreeable location in California; in a form maintained in accordance with the general standards applicable to such books or record keeping; and for a term of at least three (3) years following the close of the calendar year in which the subcontract was terminated. Further, any agreement with a subcontractor shall also contain: subcontractor's agreement that assignments or delegation of the contract shall be void unless prior approval is obtained by the Contractor from the EMS Authority; subcontractor's agreement to subcontracts and make applicable items a-d hereinabove to its subcontractors; and subcontractor's agreement to hold harmless the State in the event Contractor will not pay for services performed by the subcontractor pursuant to the subcontract.

Nothing contained in this Agreement or otherwise, shall create any contractual relation between the State and any subcontractors, and no subcontract shall relieve the Contractor of his responsibilities and obligations hereunder. The Contractor agrees to be as fully responsible to the State for the acts and omissions of its subcontractors and of persons either directly or indirectly employed by any of them as it is for the acts and omissions of persons directly employed by the Contractor. The Contractor's obligation to pay its subcontractors is an independent obligation from the State's obligation to make payments to the Contractor. As a result, the State shall have no obligation to pay or to enforce the payment of any moneys to any subcontractor.

EXHIBIT E
(Standard Agreement)

ADDITIONAL PROVISIONS

1. Federal Contract Funds

- a. It is mutually understood between both parties that this contract may have been written for the mutual benefit of both parties before ascertaining the availability of congressional appropriation of funds, to avoid program and fiscal delays which would occur if the contract were executed after that determination was made.
- b. This contract is valid and enforceable only if sufficient funds are made available to the State by the United States Government for the Fiscal Years 2009/10, 2010/11 and 2011/12 covered by this agreement for the purposes of this program. In addition, this contract is subject to any additional restrictions, limitations, or conditions enacted by the Congress or any statute enacted by the Congress which may affect the provisions, terms, or funding of this contract in any manner.
- c. The parties mutually agree that if the Congress does not appropriate sufficient funds for the program, this contract shall be amended to reflect any reduction in funds.
- d. The department has the option to void the contract under the 30-day cancellation clause or to amend the contract to reflect any reduction of funds.

2. Right to Terminate

The state reserves the right to terminate this agreement subject to 30 days written notice to the Contractor. Contractor may submit a written request to terminate this agreement only if the State should substantially fail to perform its responsibilities as provided herein.

However, the agreement can be immediately terminated for cause. The term "for cause" shall mean that the Contractor fails to meet the terms, conditions, and/or responsibilities of the contract. In this instance, the contract termination shall be effective as of the date indicated on the State's notification to the Contractor.

This agreement may be suspended or cancelled without notice, at the option of the Contractor, if the Contractor or State's premises or equipment are destroyed by fire or other catastrophe, or so substantially damaged that it is impractical to continue service, or in the event the Contractor is unable to render service as a result of any action by any governmental authority.

3. Insurance Requirements

When the Contractor submits a signed contract to the State, Contractor shall furnish to the State a certificate of insurance, stating that there is liability insurance presently in effect for the Contractor of not less than \$1,000,000 per occurrence for bodily injury and property damage liability combined.

The certificate of insurance will include provisions a, b and c, in their entirety:

- a. That the insurer will not cancel the insured's coverage without 30 days prior written notice to the State.
- b. That the State of California, its officers, agents, employees, and servants are included as additional insured, but only insofar as the operations under this contract are concerned.
- c. That the State will not be responsible for any premiums or assessment on the policy.

Contractor agrees that the bodily injury liability insurance herein provided for shall be in effect at all times during the term of this contract. In the event said insurance coverage expires at any time or times during the term of this contract, Contractor agrees to provide at least 30 days prior to said expiration date, a new certificate of insurance evidencing insurance coverage as provided for herein for not less than the remainder of the term of the contract, or for a period of not less than one year. New certificates of insurance are subject to the approval of the Department of General Services, and

Contractor agrees that no work or services shall be performed prior to the giving of such approval. In the event the Contractor fails to keep in effect at all times insurance coverage as herein provided, the State may, in addition to any other remedies it may have, terminate this contract upon occurrence of such event.

The State will not provide for nor compensate Contractor for any insurance premiums or costs for any type or amount of insurance.

ATTACHMENT 8

SCORING CRITERIA	Points Possible
Section (A) Operational Readiness, Warehousing and Logistical Support	30
<ul style="list-style-type: none"> Experience overseeing medical supply warehouse operations <i>Bidders will be scored on their years of verifiable and successful years of experience and qualifications.</i> 	Maximum of 10 points
<ul style="list-style-type: none"> Response Station Staffing and Warehouse Plan to include Response Station staffing, a Base of Operations (BoO) set-up plan and field support plan for deployments that has minimal impact on clinical operations and a reconstitution plan that maintains maximum re-deployment status. <i>Bidders will be scored on the method and overall strength of their Response Station Staffing and Warehouse Plan to ensure the minimum requirements of this section are met.</i> 	Maximum of 10 points
<ul style="list-style-type: none"> Operational Readiness and Logistics Plan that maintains the three caches in a ready to deploy state that meets the objectives outlined in Section A and the response times outlined in Section B. This includes, but is not limited to supply tracking method, expired item rotation plan, infrastructure item maintenance plan (to include vehicle maintenance, tent structure maintenance, water system and electrical system maintenance). <i>Bidders will be scored on the method and overall strength of their Operational Readiness and Logistics Plan to ensure the minimum requirements listed in this section are met.</i> 	Maximum of 10 points
Section (B) Personnel Deployment and Response	30
<ul style="list-style-type: none"> Staffing and Recruitment Plan to enroll/maintain adequate levels of personnel to meet deployment and staff rotation requirements <i>Bidders will be scored on the method and overall strength of their Medical Team staffing and recruitment plan to ensure minimum requirements listed in this section are met. The Medical Team Staffing will be measured by the number of deployable CAL-MAT Teams and MRTs.</i> 	Maximum of 10 points
<ul style="list-style-type: none"> Training plan to ensure personal readiness, position-specific training, CAL-MAT Equipment Cache familiarity <i>Bidders will be scored on the method and overall strength of their training plan to ensure at least the minimum training requirements listed in this section are met and to ensure responders are trained for the CAL-MAT and the MRT as measured in number of initial and annual training hours for quantity of CAL-MAT personnel.</i> 	Maximum of 10 points
<ul style="list-style-type: none"> Deployment and Activation Plan to meet response times, backup roster. Relief staff rotation (needs to be used in conjunction with DHV Registry if the Contractor's employee base is volunteer) and Contractor's back-up alert and notification system. <i>Bidders will be scored on the method and overall strength of their Deployment and Response Time plan to ensure minimum requirements listed in this section are met. The deployment and response times will be measured by hours of proposed response times after activation.</i> 	Maximum of 10 points
Section (C) Annual Training/Exercise	5
<ul style="list-style-type: none"> Participating in an annual training exercise. <i>Bidders will be scored on the method and overall strength of their Annual Training and Field Exercise plan to ensure minimum requirements listed in this section are met and CAL-MAT participation as measured in number of CAL-MAT participants for XX number of days.</i> 	Maximum of 5 points
Section (D) Optional Service	5
<ul style="list-style-type: none"> Optional Service to Proposal Plan rated on overall value to the program <i>Bidders will be scored on the method and overall strength of their proposals for additional optional pharmaceutical service that can be implemented as part of the CAL-MAT concept of operations as measured by the additional dollar amount above the base annual RFP.</i> 	Maximum of 5 points
